**HYDERABAD.**—Is a large and handsome city, the metropolis of the Nizam's dominions and the Head Quarters of the Subsidiary force belonging to the Nizam. The city is large and the public buildings elegant; it is in fact a fair specimen of a Mahomedan city. No European is permitted to reside in the city, or indeed can he safely pass through it without an escort, owing to the insulting language and acts of the baser part of the population, and the weakness of the Government. Insurrections are of daily occurrence but not of great extent owing to the presence of a large military force without the city. Hyderabad possesses but few articles of industry, save silks wrought with gold and silver thread, and native fire arms made chiefly by Hindoos. The Mahomedan population are sunk in debauchery, gaming, and even more pernicious vices. The harem of the Nizam is guarded by a body of Amazons clothed and armed as sepoys. Owing to the dissipation of the prince, the affairs are left wholly to his minister, who would soon destroy the integrity of the country but for the constant interference of the English resident. The office of the latter is one of great importance and is the most valuable staff appointment in the Madras Presidency. The gentleman, who now holds the post of Resident is Major General Frazer, through whose prudence, discernment and resolution the affairs of the Nizam are conducted.—Population.

British Resident..... Major General J. S. Frazer.

Military Secretary..... Major Eric Sutherland.

**KAMPTEN.**—This is a town, situated nine miles distant from Nagpore and forms the Head Quarters of the army, or subsidized force of the Rajah of Nagpore. Kamptee was selected on account of the superior advantages it offered for the accommodation of the force, which consists of a Brigade of the Madras army. The river Canaan which passes near the town affords a constant supply of good water, which is of great importance as rain falls but during two months of the year. The cantonment, which owes its origin to Mr. now Sir Richard Jenkins, a former resident, is bounded by the Canaan and possesses good accommodation for the officers and troops, which consist of about six thousand.—Population.

Commands..... Brigadier Perry.

Military Residents.—Brigadier Perry; Captain John Grimes Assistant Adj. Gen.; Captain C. P. Wilder, Assist. Qr. Mr. Master General; Captain Aug. Russell, Acting do.; Superintendent Surgeon John Morton.

**NAGPORE.**—This is a large city, the capital of Berar. The Rajah once held a prominent position amongst the princes of India, but is now much reduced in power and importance. The city of Nagpore is about five miles in circumference. The walls and defences are not strong although they appear to have been designed to offer a protracted residence, but were unfinished. Within the city there are two palaces; one occupied by the Paramount Rajah and the other by the Ghond Rajah whose family originally possessed the sovereignty. The new palace is small, but neat and decorated with the usual Hindoo embellishments in plaster. The streets of the town are narrow and dirty, the houses mean and low. Nagpore possesses a considerable transit trade; there are also manufactured here some Silk and Cotton Goods, Native Military Arms, and superior Cutlery. Without the city are some pretty gardens, belonging to the Rajah and the wealthy inhabitants.—Population.

**OOTACAMUND.**—The principal station at the Neilgherry Hills, and is situated nearly in the centre of the table-land of Mysore about 10 miles from the southern edge of the range and 7 from the northern,—immediately at the base and on the western side of Dodabetta, and is open only towards the W. N. W.; the other three sides being completely sheltered by this mountain. Its elevation is 7400 feet above the level of the sea, and it is the best locality amongst the other stations.

It has decidedly the most perfectly European climate of any in these hills and is less affected by the changes of monsoons, rains, &c. than any other which arises from its forming the line of separation between the north east Madras monsoon, and the north west Malabar monsoon.

**SECUNDERABAD.**—This place and Bolarum form the stations where the British troops and the Nizam's contingent are located, in consequence of not being allowed a place within the city of Hyderabad. The force consists of about 12 thousand men, and the whole is kept in a state of great efficiency by English officers, who are allowed to enter the service of the Nizam by permission of the Governor General. Formerly several officers were not belonging to the Company's Army but latterly a more stringent policy has been adopted: the Nizam's officers have been pensioned, officers in H. M.'s service not allowed to enter, and every officer permitted to enter the service of the Nizam is retained on the corps to which he belonged. It is therefore looked upon as a staff appointment, and of course places the entire force in our hands, or at our mercy by withdrawing the officers and rendering the force useless.—Population.

Here in 1806 took place a fatal revolt attended by a shocking massacre, and headed by the eldest son of Tippoo Sultan. Colonel Gillespie and a party of H. Abstract of the Revenue of Singapore for the official year 1043-44.

There is an increase of the Excise farms of Rs. 62,156 ;--Quit rent nearly, Rs. 2,000 ;--Fees from the Court of Judicature Rs. 8,114 ; Do. from Court of Requests Rs. 1,316 ;--Registry of vessels Rs. 656. There is a decrease on,--Amount of land sold on Building leases of Rs. 58,376 ;--Transfer Fees, of about Rs. 400 ;--Premium of Bills of Exchange, &c. Rs. 7,635. The Post office Office is nearly the same as last year.

There is an increase on the whole revenue of Rs. 6,033.

The proper local disbursements were less last year than in the previous year by Rs. 22,504, so that there is a very considerable surplus this year. It is true that on adding the Military and Convict establishment there is an apparent deficit of some Rs. 25,000, but this does not exist in reality, as will be shown by the following :

|   |         |
|---|---------|
| Amount of Expenses for Troops,.....                                 | 318,038 |

| Total Military Expenditure..... | 163,828 |
| Add Convicts,.....              | 48,167  |

211,995

There is therefore, deduct in this Rs. 211,425 from the excess of Receipts shown in B of Rs. 259,349, an actual surplus of Rs. 47,914--which ought to be increased by the expenses of the Convicts being borne by the respective presidencies from which they are sent, and by the expenses of the Magnetic Observatory being taken from our local revenues. Were these deductions made and also some Rs. 100,000 more for useless, or easily to be dispensed with offices,--such as Governor, Registrar of the Court of Judicature, &c. Singapore would be enabled to exhibit such a balance sheet as had never before been produced by any British Colony. As it is, it strikingly exhibits the advantages arising in Singapore from the free and unfettered nature of the trade and government, having from a desert island arisen into a settlement with population paying excise duties to the amount of more than three lacs of rupees, besides the large revenue derived from the lauds, litigation, &c.--Free Press, August 1.

## NEW SOUTH WALES

Governor. Sir George Gipps, G. C. B.

Division. There are two districts, Sydney and Port Phillip, having one Government and Legislative assembly held at Sydney.

**SYDNEY.** This is the metropolis of the colony of New South Wales. It is situated on a cove on the S. side of Port Jackson; the water is of sufficient depth to admit the largest vessels to approach to the quays. The harbour is safe, unchoke good, and ships protected from the wind. The streets of Sydney are irregular and the houses scattered. It contains several public institutions, in-

cluding a Society of arts, and supports a theatre and numerous publications.  
Population 15,000.

Bankers. Bank of Australia.

Merchants and Agents. J. H. Williams & co.

### PORT PHILLIP DISTRICT.

Her Majesty's Superintendent. C. J. La Trobe.

**MELBOURNE.** The Chief town of Port Phillip is on the opposite shore to Launceston, Van Dieman's Land, from which it is about 16 hours sail. A regular communication is kept up with Launceston, &c. by steamers. The district contains 200,000 acres purchased from the native chiefs Jagajaga, Corleouluck and others in 1835, in consideration of 20 pairs of blankets, 30 tomahawks, 700 knives, 30 pairs of scissors, the same number of looking glasses, 200 handkerchiefs 100 lbs of flour and 6 sherts. In 1835 the population numbered 50 and a live stock of 100 head of Cattle and 1400 sheep. In less than two years a regular town was built with several commodious Hotels, two Banks and three or four Churches! The commercial and domestic importance and progress of the colony will be best seen by reference to the amount of Customs and Wool produce which certainly exhibits a stride without example.

## VAN DIEMAN'S LAND.

Lieutenant Governor.—Sir J. Eardley Wilmot.

**Situation and Extent.**—Van Diemen's Land is an island of the South Pacific lying between the 41st and 44th degrees of south latitude, and 144th and 148th degrees of east longitude. It is not quite so large as Ireland. It was discovered by a Dutch navigator, named Tasman, in 1642, and by him obtained its present in-harmonious appellation, in compliment of Van Diemen, the then governor of the Dutch East Indies. For a length of time it was erroneously conjectured to form a portion of the mainland of New Holland. Indeed, there are many, otherwise informed persons, who conceive Hobart Town and Sydney (although eight hundred miles apart) to be towns of one colony, and perfectly contiguous to each other.

**HOBART TOWN**—The metropolis of the settlement owes its selection to Colonel Collins and dates the commencement of its history from February 1804, at which period it was founded with the view of forming a depository of refractory criminals, and a grain depot.

## FOREIGN SETTLEMENTS IN THE EAST.

## FRENCH COLONIAL POSSESSIONS IN INDIA.

Governor General and Commander-in-Chief.

**PONDICHERRY**.—This is a neat and pretty town, situated on the Coromandel coast, about 90 miles south of Madras. It is the capital of the French establishments, and for order and cleanliness it surpasses any of the English settlements. The town is divided into the white and black sections; the separation being made by an artificial river with an extensive quay on each side, and two rows of poplar trees. The streets are wide and clean, the houses built with such regularity that every residence participates in the genial influence of the sea breeze. The Government house is a small but handsome residence occupying one side of the esplanade. The Cour Royale also occupies one side of the quadrangle called the Esplanade, and near the beach is a fine Lighthouse and six pieces of cannon. The surrounding country, included in the settlement, is laid out in rice, indigo and sugar plantations. A fair amount of trade is carried on with Bourbon and France. Population 80,314; consisting of 759 Europeans, 851 gens de couleur, and 78,568 natives.

This list comprises the governments, commerce and trade, government officers Bankers, Merchants, Consuls, &c. &c. to the westward of Bombay in the following order.

Mauritius; Bourbon; Cape of good Hope; East coast of Africa; Aden; Egypt; Barbary; Algiers; Ottoman Empire, Turkey in Asia; Turkey in Europe; Persia; Muscat; Gibraltar; Malta; Ionian Islands; Greece and Grecian Archipelago; Spain; Portugal; Germany; France; Prussia; Switzerland; Austria; Bavaria; Italy; Sardinia; Tuscany; Roman States; Two Sicilies; Venetian Lombardy; Holland; Russia; Hanseatic Towns, Hamburgh, Lubeck and Bremen; Belgium; Denmark; Sweden and Norway; Great Britain, England; Scotland; Ireland; Channel Islands, Jersey Guernsey; English possessions in America; west Indies; United States; Mexico; Brazil.

### SCINDE.

*Governor and Com. in chief*--Major General Sir C. J. Napier, G. C. B.

*Acquisition*--This is one of the recent acquisitions to the British territories in the East. The Government was formerly in the hands of the Ameers, who were dethroned and are now prisoners in Bengal. The territory comprises Upper and Lower Scinde; it is under the Bengal Government but chiefly garrisoned by Bombay Troops.

**HYDERABAD**--The Native capital of the province is situated on the Fallalea branch of the river Indus. The fortress stands on a rocky hill. There are several manufactures of common ware, as tiles, swords, pottery, &c. but the trade of the place is chiefly in the hands of Hindoos. Population 20,000.

Officer Commanding..... Major General Simpson H. M. 29th Foot

Postmaster.....

Superintendent of Police..... Captain E. Baynes 20th Bo. N. I.

Bankers and Merchants. .... Jait Singh; Mohun Debbchand.

**SHIKARPOOR**--Is a large open town, inhabited principally by wealthy Hindoo bankers--Indeed one of them, by name Jait Sing, and the wealthiest of his class, has got agents in almost all the large cities in Asia; and the great influence these extensive connections naturally obtained for him in Central Asia, proved not a little beneficial to him when the army of the Indus was encamped at this place and when it was considered good policy to expend money, no matter how, in the most lavish manner possible, with a view to give the Affghans, whose country we were about to invade, a splendid idea of our great wealth and munificence.

In the hot season of the year Shikarpoor is about the most disagreeable place in the world. From sunrise to sunset it is enveloped in a dense cloud of dust which make its way into every crevice.

Post master.

Lieut. of Police.--Capt. J. Tait, 6th B. N. I.

Bankers and Merchants.--Jait Sing; Mohun Sing.

**SUKKER**--or Sukker Bukker, is a very remarkable position on the right bank of the Indus, and must have been a place of great importance during the early period of Mahomedan rule in this country. The Indus here winding its way through an undulating country, has a large circular island in its centre and high banks on both sides of its broad and noble stream. On the island is a strong fort, which completely commands the river on either side. This fort, which is called Buktur, and Sukker which is close to it, may be considered the strongest and best position for an army on the Indus. At present it is the head-quarters of a strong brigade, and the connecting point of India, Upper and Lower Scinde, Bulloochistan, and Affghanistan South.

The position chosen for the troops is rather unconnected, and, in a political point of view, open to serious objections.

Magistrate and Collector.--Capt. F. Wells.

Postmaster.

Bankers and Merchants.--Jait Sing

### THE MAURITIUS:

Governor and Com. in Chief. Lt. Gen. Sir Wm. Gomm, K. C. B.

Situation. An island in the Indian sea; the soil is generally fruitful.—Population, 110,000.

Climate. By no means unpleasant,—when the climate is hottest in India it is cool at Mauritius, but the island is subject to the visitation of hurricanes.

There are two good hotels at which the charges are very high. The surrounding country is romantic, presenting every variety, where the waterfall, the cane covered valley and the steep, craggy, and mist shrouded mountain mingle in happy combination. In the town every one walks about with the same indifference regard for the sun's influence as in Europe. The houses are well built and the streets clean and regular.

Country. The southern extremity of Africa formerly belonging to the Dutch but now an English colony. The soil is generally barren.

CAPE TOWN.—The capital of the colony is on the W. side of Table Bay immediately at the foot of the mountain called Table mountain. The town is regularly built, parallel streets intersecting each other at right angles, many of which are shaded with trees. The town is divided into 12 districts and is under municipal regulations; each district has 4 wards, the ward masters being chosen by the inhabitants. One of the principal duties of the ward masters is the classification and appraisement of landed property in Cape Town. The town is abundantly supplied with water by means of pipes. On the left of the town (entering from the Bay) stands the castle, a strong fortification commanding the anchorage. Here are also other works of defence as the *Royge-Bay*, *Amsterdam*, *Charonne* and the *Mouille*. At the latter place a lighthouse has been erected in which a French lenticular light of the 4th order is in use, the old light still exists at Green Point. The *Police* are a body of men organized; upon the principle of the London Police and are considered very efficient. There are several buildings for religious purposes. The established Dutch Church is Calvinistic; St. George's (Episcopalian) is a handsome edifice and in the Scotch church gas light has been lately introduced at night services by the present pastor the Rev. Mr. McGregor. A Roman Catholic Church of Gothic construction has just been completed. There is also a small Mahomedan mosque. The secular buildings worthy of notice are few: of these may be mentioned the commercial Hall on the grand parade containing apartments for public meetings, the Library and Exchange (the Library contains about 30,000 volumes.) The buildings occupied for transacting the affairs of government are near to each other at the top of the Herengracht. In the government gardens is situated the residence of the Governor and a college for public education—the latter is a recent erection. Near the Royal Observatory, a magnetic observatory has been erected, where a series of observations are carried on—these were lately under the direction of captain Baily Wilmot of the Royal Artillery. At Feldhausen, near the showy and pleasant village of Clavemont, an obelisk has lately been erected in memory of Sir John Herschel's scientific visit and residence at the colony. *Wine*, the chief exports of the Cape, are the product of the division of Stettensbosch especially the Paarl, Drakenstein and Wagenmakers valley. Considerable quantities of wool, hides, skins, horns, horses, ivory, whalebone, provisions and various other articles are exported. The imports consist of Woolens, Cottons, Hardware, &c. Piece Goods and Timber are imported from India, tea from China, Sugar from Mauritius and India, and Coffee from Rio and Batavia. One particular commercial usage must not be forgotten. Sale of goods privately or by commission is a practice unknown at the Cape. The mode of disposing of products raw and manufactured is by public sale. Hence there are weekly sales

or fairs on the parade ground, every saturday. At this emporium there assembles every week a great number of persons and every description of goods are exposed for sale at Auction stalls Population 22,500. (last census.)

**ALGOA BAY.**—The seaport of the Port Elizabeth district and of the whole eastern province. The town has sprung up since the arrival of the English settlers in 1820. In the year just mentioned the late Sir R. H. Donkin caused a small cenotaph to be erected here in memory of his deceased lady and named the village Port Elizabeth, its population then amounted to about 35 persons and its trade was confined to the occasional visit of a coasting vessel. Here are now several public buildings as the Offices of the commissariat and a place d'Armes, at a cost of about £12,000. The episcopal protestant Church, dedicated to St. Mary is a neat building, as is also the Court House. The port is furnished with a pier extending 350 feet into the Sea, by which the danger and inconveniences of the surf are avoided. The black whale visits the coast between the months of June and September and gives employment to the whale fishery establishments. ## THE BOARD OF CONTROL OR INDIA BOARD.

In the year 1784, all the political parties in England had become convinced that some very material change in the Government of the East-India Company's extensive acquisitions of territory in Indian was indispensably necessary. In this crisis, Mr. Fox brought forward his famous India Bill, the grand object of which was to abolish both the Court of Directors and the Court of Proprietors of the East-India Company, and to vest the Government of India in the hands of seven commissioners, who were to be appointed by Parliament.

The coalition between Lord North and Mr. Fox had rendered their administration exceedingly unpopular, and their opponents and the Company took advantage of the unpopularity of the ministry to raise an extraordinary clamour against this India Bill. The Company stigmatised it as an invasion of their chartered rights, and the opposition party represented the parliamentary nomination of commissioners as a daring invasion of the Crown, and an invidious attempt of the minister to render himself all powerful by means of the patronage of India. The Bill passed through the Commons, but, in consequence of the popular ferment which had been excited about it, and of the avowed disapprobation of the King, the Lords threw it out, and the defeat overthrew the coalition ministry.

Mr. Pitt formed a new ministry, and in a new Parliament he secured a decided majority in both houses, and carried his India Bill successfully into a law, controlling the Company in the Government of India by a board of Royal Commissioners.

On the 18th of May, 1784, the Act of Parliament of the 24th of George the third, chapter the twenty-fifth, received the royal assent. It empowers the King to appoint six Privy Counsellors to be Commissioners for the Affairs of India, one of his Majesty's principal Secretaries of state, and the Chancellor of the exchequer, for the time being, always to be two of them, three of whom shall make a Board, and the Secretary of State to be President, and in his absence the Chancellor of the Exchequer, and in the absence of both, the senior commissioner shall be President. The President has the casting vote. The King may revoke the commission at pleasure and appoint new commissioners.

The powers of this Board are very great; they have the superintendence and control over all the British territorial possessions in the East Indies, and over the affairs of the United Company of Merchants trading to the East Indies. The Court of Directors of the East India Company, must, if required, lay all their letters and papers to and from India before this Board, and receive their orders, and if they are not contained therewith, they can appeal to the King in Council.

Neither the commissioners nor their chief Secretary are disqualified from being elected Members of Parliament. Commissioners are to have access to all papers belonging to the Company. The Company is bound to deliver to the Board copies of all minutes, &c., of both courts, concerning the Government or revenue; and to obey all orders relating thereto; and in case of delay, the Board is empowered to forward its own despatches to India.

In 1786, the Act of 28th Geo. III., c. 57, erected a Royal Court of Supreme Judicature in India, and provided that Members of the Board of commissioners should not compose part of the new court.

The 28th of Geo. III., c. 8, empowered the Board to direct the payment in India, of the expenses of raising, transporting, and maintaining royal troops to the number of 8,045 men and of Company's European forces to the number of 12,000 men including, in both cases, the commissioned and non-commissioned officers. And the 31st of Geo. III., c. 10, extent the number of royal troops as much as 2,682 additional.

The Charter Act, the 33rd, Geo. III., c. 52, empowered the sovereign to appoint commissioners under the great seal; two Secretaries of state and the Chancellor Exchequer always to be included; three commissioners to form a Board; the commissioner first-named in the commission to be President; and in his absence the next; whoever presides to have a casting vote. The Board may appoint secretaries and officers; the salaries of the establishment to be paid by the Company quarterly; those to the Board not exceeding five thousand pounds a year, and those of the officers and others not to exceed eleven thousand pounds a year.

Commissioners and officers to take certain oaths. The powers of the first Board not to cease until the second Board is appointed, and their powers respecting troops continued. This act greatly extended the power of the Board over the Company; especially in giving them political power over the commercial affairs of the Company.

The 37th Geo. III., c. 117, requires the consent of the Board to legalize regulations of the Company for the India trade of nations in amity with the crown and emp. 142 obliges the supreme government to transmit to the Board ten copies of the regulations, issued by them in each year concerning all persons amenable to the provincial courts; also to transmit to the Board, for the royal assent, all new forms of process for the courts of Judicature at Madras and Bombay. The 30th and 40th Geo. III., c. 79, make the Board necessary for appointing what part of the territorial revenue or civil servants under Madras and Bombay should be under Fort William, Madras, and Bombay; and for changing such appointments. The 47th of Geo. III., c. 68, renders the consent of the Board necessary for establishing public Banks in India.

By the 51st of Geo. III., c. 75, the Board received powers to augment its own expenses so as not to exceed the sum of twenty thousand pounds a year.

The Charter Act of the 33rd of Geo. III., c. 153, again added very greatly to the Board's power over the Company, especially in licensing ships and persons to proceed to India, it also required the approval of the Board to render valid any duties imposed in India; it gave the Board full power over all colleges and seminaries, abroad and at home; also over the apportionment of the territorial revenue, and of loans in India to the Company's trade, and forbade the Company to send out any despatches on the subject until approved by the Board; it forbade

the Secret Committee of Directors from disclosing any despatch without the authority of the Board, and forbade the company from filling up vacancies in India without the approbation of the Board, except in Council, generals on the staff, advocates, attorneys, chaplains, uncovenanted servants, writers, cadets, and assistant-surgeons; the restoration of servants was declared invalid without the consent of the Board, and no gratuity above six hundred pounds could be paid without the consent of the Board; this Act also empowered the Crown to grant superannuations to the officers of the Board. Again, by the 55th of Gen III, c. 64, sec. I, it was enacted, that no gratuity is to be given above £600, unless confirmed by the Board.

According to the established form of the India Government in England, the Board of Control consists of a first commissioner, who is President, of two active commissioners, together with several commissioners, inclusive of the King's principal cabinet ministers; but all these *ex-officio* and extra commissioners may be deemed honorary as they do not receive salary or perform any duty.

From the year 1784 until 1793 his Majesty's principal Secretary of state for the Home department was always the President of the India Board, without salary, on this footing Lord Viscount Sidmouth, Lord Grenville, and Lord Melville, were successively appointed. In 1793, Parliament changed the system, and the office of President was made a separate appointment, with salary.

The President has now been salaried for a period of fifty years, and in this short period no less than nineteen appointments have been made; even three new Presidents have been appointed to the Board in a single year. Sometimes, the Crown appointed a President who had made a voyage to India, as in the case of Lord Bucklehamshire.

The other salaried commissioners are generally appointed in consequence of their claims on the party in power, without any reference whatever to their peculiar qualifications for controlling the affairs of India.

From 1784 until 1833 the India Board had but one secretary, since then it has had two secretaries; the secretary in like manner with the commissioners, is a political partisan of the minister of the day, who can get himself a seat in the House of Commons.

The clerks do not go out of office with their patrons; they are fixed officers, brought up in the office, and rise by seniority. They give all their attention to their respective duties, and they understand the affairs under their superintendence well. Under manifold disadvantages, the clerks are the recognized depositaries of the Board's knowledge of the affairs of India.

In the year 1831, the number of clerks below the rank of senior was ten, and there was a *precis* writer.

On the 7th of May, 1816, the secretary represented to the Board that he had been obliged constantly to employ a private secretary, and that he should on many occasions have been disabled but for such assistance from executing the Board's orders with punctuality and despatch, and that few persons in an official situation such as he had the honour to hold were without the assistance of some confidential and personal clerk.

On the 25th of June, 1816, the Board made a minute, in which they said,—The secretary, together with the assistant-secretary and chief clerk, having represented to the Board that the number of clerks was by no means sufficient for the current miscellaneous business, and having suggested the expediency of taking advantage of the resignation of the then assistant-secretary to increase the numerical strength in the lower parts of the office, the Board determined not to fill up the office of chief clerk the duties of which were to be performed by the secretaries or, under their superintendence, by the junior clerks, whose number it was intended to augment.—The Board also allowed the secretary to employ a private secretary; and they directed, 'that in consideration of the laborious duties performed by the librarian, and his assiduity and diligence,' his salary should be increased to £300 per annum; and in pursuance of the same minute, the allowance to the assistant librarian was increased to £80. The number of junior clerks was accordingly increased from ten to thirteen, and private clerk was allowed to the secretary.

In the year 1817, the removal of the Board to the separate office in Connaught Row, rendered the appointment of a porter necessary.

On the 30th of September, 1818, the Board recorded their opinion that, 'considering the great weight of business which fell upon the chief secretary, the unwearied industry and attention with which he discharged it, and the length of time during which he had served, it was just and reasonable to augment his salary by £200, making it up in the whole to two thousand pounds sterling a year;' and, 'that in future it would be expedient that the secretary's salary, commencing at £1,800 a year, should receive an augmentation of £200 at the end of five years, of £200 at the end of seven years and of £300 (making in the whole, £2,500) at the end of ten years' service.' The Board also 'took advantage of the saving produced by the retirement of one of the senior clerks, who received a special allowance, not continued to his successor, to meet the increased and increasing business of the office, by the appointment of two junior clerks.'

On the 26th of March, 1820, another junior clerk was appointed. On the 15th of April, 1822, the Board expressed their opinion that the office of deputy-accountant might properly be abolished, that the officer performing his duties, should be 'assistant' to the accountant; and in the same year the Board deemed it advisable to establish a new scale of rank in their establishment, by interposing six 'assistant clerks,' between the senior clerks and the junior clerks.

In pursuance of the Board's minute of the 10th of December, 1823, the title of 'accountant' was changed to that of 'senior clerk in charge of the department of accounts,' and the officer having such charge is included among the six senior clerks; and on the 10th of February, 1824, the allowance to the assistant-librarian was further increased to £100 a year.

On the 25th of April, 1826, the Board found it necessary, for the better management of the public business to separate the judicial from the revenue department, and to appoint a sixth senior clerk as head of the judicial department.

On the 25th of June, 1828, the secretary's salary was fixed at two thousand pounds, without regard to length of service, but the Board, 'adverting to the state of the finances of the office, and to the power vested in them by his Majesty's warrant, of making such suspensions or abatement of the salaries therein allowed, as from time to time might to them appear necessary, in order that the whole amount of the salaries and expenses of the Board might not exceed the sum of twenty six thousand pounds in any one year,' directed that a suspension should be made of the salary of the secretary to the amount of two hundred pounds; they also suspended from the first assistant clerk fifty pounds, from the ninth and tenth assistant clerks, each twenty-five pounds, from the first messenger twenty pounds, and from the second messenger thirty pounds; and at the same time the Board increased the number of junior clerks by one more to the number of twelve, making in all, below the rank of senior clerk, the number of eighteen assistant clerks and junior clerks, by which the establishment of the Board included the appointment of one senior, one assistant, and two junior clerks to each of the six departments into which it is divided; namely, secret and political, revenue, judicial, military, public and ecclesiastical, and accounts.

## COURT OF DIRECTORS OF THE EAST INDIA COMPANY.

The Court is composed of twenty four (not of 'thirty') proprietors, qualified by Act of parliament and chosen by ballot from the body of the electors. The necessary qualifications are natural-born or a naturalized subject of Great Britain,--- the possession of £20,000 stock, no matter for what previous period in his own right or for his own use, not being a Director of the Bank of England or South sea Company, a Resident in England for two years time holding office in India, or having held no maritime office in the service of the Company for two years previous to his proposed election, and not having under any plea or pretence whatsoever, endeavoured to obtain directly or indirectly a vote for the election of himself or any other person to be a Director. If elected he takes a solemn oath in pursuance of an act passed (the 33d George III.) of which the following is the substance: After binding him to carry on no private trade, to have no dealings with the Company except as a private individual, not to hold any place of emolument under the crown:---He further swears not to accept or take either any emolument or present for any appointment or nomination of persons to any place or office in his gift, or that of the Company, or on account of appointing the voyage of any ships in the Company's employ, or on account of, or any ways relating to any other business or affairs of the Company, and further swears to be faithful to the Company, and according to the best of his skill and understanding to give his best advice and assistance for the support of the good government of the Company, &c.

The bye-laws enact that a Director must make a report to the Court previous to leaving England; he has no power to remain beyond the seas more than one year, and is liable to removal by the Court of Proprietors; every Director absent on a Court day is fined £1. 1s. Six Directors retire annually by rotation and are not again eligible for one year, and in case of death or removal, the Director who may be chosen to fill the vacancy, holds it only during the remainder of the term which his predecessor had to serve. Seven month's public notice is given of any annual election; printed lists of members, qualified candidates, are published thirty days before any election. A chairman and deputy chairman are annually chosen by ballot. The Court must meet at least once in every week; not less than thirteen Directors form a court; on all questions of importance the sense of the Court is taken by ballot, and in case of any equality of votes, the drawing of a lot by the Treasurer determines.

The Court of Directors enjoy full authority over all matters at home as well as abroad, relating to the political, financial, judicial, military, and commercial affairs of the Company, (with the exception of matters of the highest importance entrusted to the Committee of Secrecy) but its proceedings are subject to various acts of Parliament, to the superintendence of the Board of Control, and in several matters to the approval of the General Court as before detailed.

The Court of Directors have the patronage of India, and they have power to remove any officers or servants, except those appointed by the Crown. They are to lay certain accounts annually before Parliament; to frame regulations for the trade of friendly nations with India; and to report half-yearly on recruiting. They expend the revenues of India, and their declaration of an officer not having settled his accounts, renders him ineligible for the direction, for two years after his return. They are to frame estimates of Home expenses; and to regulate the promulgation of laws in India. They can suspend the Council boards in India, or reduce the number of their members. The Court of Directors regulate the distribution of patronage in India, and they are especially directed to take into their consideration, all drafts of laws respecting slavery in India, transmitted from India, and to give instruction thereon.

For the better fulfilment of these multifarious duties, the Court is divided into Departmental Committees, with distinct subordinates.

The Chief committees, of the court are as follows:

|  |                                   |
|--|-----------------------------------|
| Secretary Committee.                       | Finance and Home Committee.       |
| Revenue, Judicial & Legislative committee. | Military and Political Committee. |

**Committee of Secretary.**—The Cabinet Council of the Company.—Functions ministerial,—defined by act of Parliament, composed of the Chairman, deputy Chairman, and senior Director, who receive and deliberate on all despatches of the highest importance relative to peace, war, or negotiation abroad, and all matters of a delicate nature at home, confer with the Board of Control thereon and officially sign private despatches from the Board, the responsibility and power remaining with the latter.

The mode of transacting the business of the E. I. Company with the Governments of India is as follows. Despatches from India are on their arrival delivered to the proper department, and when necessary to address the Governments, either in answer to despatches or otherwise, a draft is framed under the superintendence of the Chief of the Department to which the business belongs. The draft thus prepared is submitted to the Chairman and Deputy Chairman, and when approved by them, is usually (if of an important nature, or upon a subject on which any serious difference of opinion is likely to arise) transmitted in what is called 'previous communication' to the Board, who return it with such alterations as they desire to be made.—The views of the Board having been thus ascertained, the draft is either altered to meet them or not, as the chair may determine, and in the state which they approve, it is laid before the proper Committee, by whom it is considered and forwarded to the table of the Court. There it undergoes full discussion, and in the form finally determined by the Court is transmitted Officially for the approval of the Board. If returned approved, it is despatched to India forthwith; if altered, the alterations become the subject of fresh consideration and (if at variance with the impressions of the Court) of correspondence and remonstrance. When the final decision of the Board is obtained, the altered draft is forwarded as a despatch in the form mentioned.

In some cases where no necessity appears for making a Draft, the subject of the proceedings is dispensed with.

The preparation of drafts sometimes requires communications between different departments of the house, these do not assume *formal* character, they are made either personally or by transferring the papers accompanied by short unofficial notes memoranda.

#### THE COMMITTEE OF BY-LAWS.

The Charter of 1698 invested the general court with the power of enacting by-laws; and the first general court of the United Company appointed Committee of fifteen proprietors, of £2,000 of stock, to frame by-laws. Their code ordained that, thenceforward, a Committee of seven was to be ballotted annually, in June; but, in 1716, the General court dispensed with the ballot, and substituted a show of hands; and in 1775, a motion to revert to the ballot was negatived. The Charter Act of 1813 rendered a revision of this code necessary, and then much labour devolved upon the Committee. The code is to be read annually in each court. In the long period of the thirty years which elapsed from 1786 to 1816, the Committee of by-laws made but two reports to the general court, and during the space of seven entire years, it had not even met at all. In June, 1814 at the first Midsummer meeting after the Charter was renewed, in consequence of the old Committee having never been in the habit of meeting to discharge their duties, some proprietors intended to expose their neglect, but the chairman re-appointed the old Committee of seven. Even then, the subject was brought forward, and the Company felt the need of a reform in the Committee.

The Committee appointed to inspect the Company's by-laws met at the India House, and, on the 18th of February, 1815, they made a report, recommending various alterations.

Amongst the alterations, made, the following may be noticed. the Company's books of Home accounts had been balanced on the 31st June; but because their India accounts and parliamentary accounts were brought up only to the 30th of April, that date was adopted for the Home account also, as tending to exhibit a more correct view of the pecuniary concerns of the Company. The accounts at each Presidency were in future to be signed by the accountant-

general, on pain of dismissal on refusing or neglecting to sign them. In the annual account laid before the proprietors, the proviso for including the guarantee fund was now omitted, because the new Charter Act directed the way in which that fund was to be appropriated. The General accounts of the Company must consequently exhibit its amount and application; and therefore that part of the old by-law became unnecessary. The charter of 1793 had obliged the company to supply tonnage for private trade; but now the India trade was opened to private British ship; and therefore the rule for accounts of this tonnage was abrogated. A more correct check on the treasury account than that resulting from the old by-law was also recommended for adoption. Heretofore, the law was, that every tender should be entered as the same is received, and remain upon the records of the Company; but because many of the offers for goods contained so much extraneous matter, and arose long and incoherent, that the entering of such into a book was a work of very great labour and of no apparent utility, it was now ordained merely 'that an abstract, containing the substance,' should be recorded. As the proprietors of private trade now obtained, the right to direct the sale of their goods when they please, the old by-law on the subject became useless, and therefore it was dropped in framing the new code. In drawing from the bank, instead of the cashier's signature being sufficient, it was proposed, as a more secure check on the Company's cash, that the signature of a chairman and of another director, countersigned by the cashier, should be required, and that only the cashier should present the draft for payment. The Secret Committee of Directors, which existed previous to the Secret Committee enacted in 1793, was revived for the management of such part of the commercial affairs as might be of a nature to require secrecy. Committee of Directors had been obliged to report immediately to the Court of Directors; but now, in order to enable absentees to inform themselves on points discussed, previous to reporting, fourteen days were allowed for the report. The Committee of Shipping was abolished, and those of buying and warehouses were united into one.

In order to invest the chairman with the same powers as in most other corporations, it was proposed to invest him with power to call a Court of Directors as often as he thought fit, and that no Director should quit the Court without leave of the chairman. Superannuations of the Home Establishment not to be laid before the general court, but gratuities exceeding £300 to be reported to a special general court being submitted to the Board. A committee empowered to license exports on the Company's ships, as it would be extremely inconvenient to have the sense of thirteen Directors on such matters. Licensed ships to be reported annually. The Company now allowed the Court of Directors to invest the Company's money in shipping for the general service of the Company, that is to hold Indiamen.

In 1816, the Committee was increased to fifteen members, and was obliged to meet, at least, twice a year; and up to the year 1829, it actually met fifty times. In 1835, the Chairman of the Company said, that on no occasion, within his memory, had it happened that a nomination from the chair had been set aside.

## COURT OF PROPRIETORS.

In the 'General Court' there is no distinction as to citizenship, the Englishman, the Frenchman, the German, the inhabitants of any nation, are eligible as Members. There is no difference as to religion; the Christian, the Jew, the Turk, the Pagan, the Professors of every or of no creed, are equally admissible; there is no impediment as to sex; a woman as well as a man is entitled to the free exercise of her opinion in this assembly; there is no aristocratical bar, the soldier and the sailor, the merchant and the agriculturist, stand on the same footing; and to all this must be added the elective voice of the British people is fast hastening the use of the vote by ballot. The new act authorizes a vote by power of Attorney.

The qualifications for sitting and voting are thus regulated:

|   |                               |
|---|-------------------------------|
| A proprietor, of £500.....                  | stock, is entitled to a seat. |
| Ditto £1,000.....                           | „ to one vote.                |
| Ditto £3,000.....                           | „ to two votes.               |
| Ditto £6,000.....                           | „ to three votes.             |
| Ditto from £10,000 to 100,000 and upwards,, | to four votes.                |

The Court is convened regularly four times in every year, in March, June, September and December, and at such other times as may be deemed necessary for special purposes, nine qualified proprietors being empowered to address a requisition in writing to the Court of Directors to convene a Court, which not being summoned within ten days, the aforesaid proprietors may call such meeting on their own requisition, previously affixing notice to that effect at the Royal Exchange.

The annual average of courts held is about twelve.

The chairman of the Court of Directors is *ex officio* the speaker or chairman of this court; his duty is to attend to the summoning and appointing of the quarterly assembly, to convene special courts, to preside at all meetings, to introduce to the notice of the court all business arising out of any measure which may have been adopted by the Directors; to bring forward all motions which require the sanction of the court, to lay annually before its members accounts shewing the net profits of the Company in Great Britain, and the application and disposition thereof; a general statement per computation of the Company's affairs to the 30th April in each year; such accounts and papers as may from time to time be laid before either House of Parliament by the Court of Directors, and all proceedings in Parliament, which, in the opinion of the Court of Directors, may possibly effect the rights, interests, or privileges, of the East India Company generally, before the same shall have passed into a law.

The following powers are vested in the Court. The election of all qualified persons to form the Court of Directors, the declaration of dividends on the capital stock of the Company subject to certain legislative enactments. The framing altering, or repealing such by-laws as may be deemed necessary for the good government of the East India Company, provided such do not interfere with any Acts of Parliament. A general control over any increase to a salary or pension exceeding £200 a year, or over any gratuity beyond £600, over the creation of any new office at home or abroad, with a salary exceeding £200 or over superannuated allowances to officers and servants in England. The Court can confer a tribute of approbation and a pecuniary reward on any statesman or warrior whose services may seem to them worthy of such manifestations of popular gratitude; should the donation however, exceed the sums before mentioned, it is subject to the confirmation of the Board of Control; it can also demand copies of various public documents to be laid before it for discussion and consideration; but by Act of Parliament it is prevented rescinding, suspending, revoking, or varying, any order or resolution of the Court of Directors relative to the Revenue, or civil or military Government, after the same shall have received the approbation of the Board of Control.

#### ORDER OF THE BATH.

*Instituted 1389; Revised 1702; Extended, 1815, Motto Tria Juncta in Uno—RIBAND, Red.*

This order consists at present, exclusive of foreign and honorary members, of nearly 800 individuals, of whom 27 are Civil grand Cross, 15 honorary Knights grand Cross, 12 honorary Knight Commanders, 27 honorary Companions and the remainder Naval and Military Officers.

By statute, Jun., 2, 1815, it is ordained, "for the purpose of Commemorating the auspicious termination of the long and arduous contest in which this Empire has been engaged," that the Order shall be composed of three classes, viz:

**1st CLASS.**—To consist of Knights Grand Crosses number not to exceed seventy-two, exclusive of the Sovereign and Princes of the blood Royal; twelve of the number may be appointed from the Civil and Diplomatic Services. This dignity not to be conferred upon any Officer (except the above twelve) who shall not have attained the rank of Major General in the Army, of Rear Admiral in the Navy, and must have been previously appointed to the second class.

**2d CLASS.**—Knights Commanders, number not exceeding upon the first Institution, one hundred and eighty, exclusive of Foreign Officers holding British Commissions, of whom not exceeding ten may be admitted as Honorary Knight Commanders, in the event of actions of signal distinction, of future wars, the number of this Class may be increased. To be entitled to the distinctive appellation of Knighthood to have the same rights and privileges as Knights Bachelors, but to take a precedence of them; to wear badge, and pendant by a red riband round the neck, the star embroidered on the left side.

**3d CLASS.**—Companions of the order not limited in number, they are to take precedence of Esquires, but not entitled to the appellation, style, &c. of Knight Bachelors. To wear the badge assigned to the 3d class, pendant by a narrower riband to the button hole. No Officer can be nominated unless he shall have received a medal or other badge of honour, or shall have been especially mentioned in despatches in the Gazette, as having distinguished himself in action.

The new badge for the Military classes of the order, is a gold Maltese Cross of eight points, enamelled argent in the four angles a lion passant, guardant, or in the centre, the rose, thistle, and shamrock, issuant from a sceptre between three imperial crowns, or, with a circle, gules,--thereon the motto of the order surrounded by two branches laurel, proper, issuing from an escrol azure inscribed "Ich Dien" in letters of gold, worn by the Grand Crosses pendant from a red riband across the right shoulder by the Knights Commanders from the neck, and by the companions from the button hole. The collar is of gold, weighing thirty ounces, of troy weight, and is composed of nine imperial crowns and eight roses, thistle and shamrock, issuing from a sceptre, enamelled in their proper colours, tied or linked together with seventeen gold knots, enamelled white, having the badge of the order pendant thereto. The Star of the Military Grand Crosses is formed of rays of flames of Silver, thereon a gold Maltese Cross, and in the centre, with the motto, branches of laurel, issuant as above described three imperial crowns of gold and is worn on the side.

The Civil Knights Grand Crosses retain the old badge and star of the order.

No Knight can wear the collar before his installation.

The Star of the Commanders is in the form of a Cross patee of Silver, having the same centre as the Grand Crosses, but no gold Maltese Cross thereon.

### ROYAL HANOVERIAN GUELPHIC ORDER.

This order was instituted by the Prince Regent in the name of His Majesty Geo. III "King of Great Britain, and Hanover" in 1815. The badge is a gold Maltese Cross of eight points surmounted by a Crown, and bearing on its Centre the white Horse surrounded by the motto "*Nec Aspera terrent.*" Ribbon, sky blue, watered. On the death of William IV, the power of conferring this distinction passed, agreeable to statute II, to the Crown of Hanover, but it still enrolls 585 British Members, admitted before that event--of these 67 are Civil and 135 are also Members of the orders of the bath. The following are extracts from Royal Ordinance of Institution dated "Carlton House, 12th Aug. 1815."

I. This new order of Knighthood is to be considered as instituted from the 12th August 1815, and to be styled the Guelphic order, in commemoration of several important events. For the more particular splendour of this order the office of Grand Master is for ever to be vested in the Crown of Hanover, IV. The order is to consist of three Classes, Grand Crosses, Commanders and Knights, VI. Only those of our servants and subjects are to be received into the order who have not only performed their services according to honor and duty, but who have particularly distinguished themselves or performed extraordinary services for their country. VII. This order gives to those who obtain it, exclusive of the consideration for their services, not only precedence before those of their rank who do not possess it but gives to those who are not noble, for their person all the rights of nobility, and the admission to our Court attached thereto.

I. *Supplementary* In order to give this our order greater value higher dignity we do hereby Command that such persons only shall be received therein who are of good descent, and birth, possess arms, and are of unimpeachable conduct, &c.

II. It is our Royal will, that the Blank Courser Herald shall obtain the Arms of the different Knights, and place the same as well on the Chapel of our Palace

at Hanover, as in the Ancient Hall of Knights, there, the Arms to be placed on a Copper plate within a Sky blue Circle bearing the Motto "*Nec asper terrent*" in letters of gold surrounded, if a Military person, by a wreath of laurel; if Civil, by wreath of Oak. Under the Arms shall be engraved the name and rank of the knights, also the date of their reception, as a durable remembrance to posterity of their distinguished merit and services.

III. Grants to the grand Crosses, the right of using the Collar Circle, Motto, wreath and badge with their Armorial bearings, and to commanders and Knights the same insignia with the exception of the collar.

**LONDON.**—The metropolis of Great Britain and the emporium of the civilized world, is one of the largest and most opulent cities in existence. It is situated on the Thames at 79 miles distant from the mouth of that river, which is navigable for the largest description of vessels. London consists of several districts, cities in themselves, each represented in Parliament. These districts consist of the city, or London within its ancient boundaries, the city of Westminster, Borough of Southwark and the recent incorporated Boroughs, Tower, Hamlets, Marylebone and Lambeth, including an area of seven miles in length and averaging upwards of two miles in width. The public buildings are numerous and magnificent, the private residences noble and the shops of business elegant and commodious. It is the emporium of the liberal arts and literature as well as trade. There are numerous inns of court, two universities, colleges and learned societies, scientific institutions and seminaries. Its cleanliness, supply of water, and the artificial lighting of the streets at night are without equal. Taken as a whole the metropolis of England is incomparably the greatest city of modern or ancient times. Population 1,500,000.

The following Rules for the grant of leave of absence, and for regulating deductions from salaries and deputation Allowances having been approved and passed by the Honorable Court of Directors, are published for general information; and will take effect in all the Presidencies, Settlements and Stations under the Government of India, from the date of the arrival of the Gazette containing them, respect to all leaves of absence granted after that date. The notes show the interpretation put by the Council of India upon the rules in their application, to cases not specifically mentioned.

Note.—All the Sections marked thus are the amended Sections passed by the Government of India on the 17th May 1843.

### RULES FOR APPLICATION \* FOR LEAVE OF ABSENCE AND FOR FIXING THE LOCAL LIMITS WITHIN IT WHICH IT MAY BE GRANTED.

Section I. No leave of absence from any office or station can be granted but by the Government of the Presidency under which the employment is held, and the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted, must be made publicly through the regular channel in the Department to which the applicant may belong.

Note.—This rule must be considered as superceding the rule under which Commissioners of the Revenue and other Officers have heretofore been allowed to grant leave of absence in Bengal.

Sec. II. The Official allowances of the holder of a civil office quitting his station without leave will entirely cease from the date of his quitting until his return, or in the event of his subsequently obtaining leave to the date of such leave being granted to him.

Sec. III. No leave of absence shall have any retrospective effect except in cases of severe illness, to be attested by a medical certificate, conforming in every respect to the directions contained in Section V.

The leave with retrospective effect referred to in this section, is leave extending to absence antecedent to the permissions of the Government—that is to absence in anticipation of original leave without the excuse of sickness. Vide Resolution of the Government of India, dated 14th April 1841.

Sec. IV. Upon application duly made, the Government of each Presidency may grant leave of absence to any place or places in the Continent of India, whether within the territories subject to the Government of the East India Company or not, to any Civil or Military Servant holding a civil appointment, subject to all the conditions prescribed in the rules that may be applicable to his case. Upon similar application the Government of each Presidency may also grant leave to such persons subject to the like conditions, to proceed to the Island of St. Helena, the Colony of the Cape of Good Hope, or to any place situated between the 36th Degree of North Latitude and the 50th Degree of South Latitude, such place being likewise between the 30th and the 180th Degrees of Longitude East of Greenwich, excepting however any Islands in the Mediterranean or Levant, and excepting all places within the said Geographical limits which may form part of Europe. Provided also, that if at any time the Government of India shall deem it expedient to exclude any place or places within the limits above described from the operation of these rules, such exclusion shall be officially communicated to the subordinate Governments, and all leave subsequently granted shall be regulated accordingly. A Servant passing the limits herein prescribed will incur the immediate forfeiture of his office or employment, and of all official allowances whatever from the date of his quitting India.

## CHAPTER II.

## RULES FOR SICK LEAVE.

Sec. V. When an application for leave of absence is made on the ground of ill health, it must be accompanied by a certificate from the Medical Officer by whom the applicant has been attended, distinctly stating from personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place either within the Territories subject to the Government of the East India Company or beyond them, but within the limits laid down in Section IV. as the case may be; and such certificate must be submitted to the consideration of the Medical Board, and if satisfactory, shall be countersigned by one of its Members. An application for an extension of leave must, if the applicant be in India, be accompanied by a certificate from the Medical Officer by whom the applicant is attended, shewing sufficient reason for the extension solicited, and such certificate like the former must be examined and countersigned by a Member of the Medical Board. If the applicant shall have proceeded beyond the Territories under the Government of the East India Company, he must furnish a certificate to the required effect from a Surgeon or Physician at the place of his temporary residence by whom he has been attended, such attendance and the period of it to be stated, and the certificate to be countersigned by the principal Medical Authority of the Colony or Country. When any of the required particulars are neglected leave will be refused.

(a) Sec. VI. Civil Servants absent from their Stations under Medical Certificate, within the limits of their respective Presidencies, shall be entitled to the Salaries of their offices for the period of two years, subject to a deduction of  $\frac{1}{3}$  for the whole term of such absence, save and excepted that for the first year; if the Salary be not more than 500 Rupees per mensem, no deduction shall be made, and if it be only so much more than 500 Rupees that the prescribed deduction of  $\frac{1}{3}$  would reduce the allowance below that sum, only the

In explanation and modification of this section, the Governor General in Council is pleased to resolve, that in cases of extreme urgency, which owing to the distance of the residence of the Medical Board, preclude the previous reference to that authority, the certificate of the medical attendant required from applicants for leave of absence on account of ill health, shall be submitted, by them for the consideration and countersignature of the Superintending Surgeon of the Division, or of the nearest Division, which Officer, in these cases, will be responsible for the prescribed regularity of the certificate, instead of the Medical Board. Vide Resolution by the Government of India dated 24th June 1840.

All civil servants on obtaining Medical Certificates agreeably to the provisions of this Section, shall forward them immediately to Government, and such Medical Certificate when passed by the Medical Board are to be handed up by the Board direct to Government; the requisite application for leave being at the same time submitted by the Civil servant requiring it. Vide Notification by the Government of India, dated 17th June 1841.

Applicants for sick leave must not leave their stations without previous permission obtained from Government except in cases of absolute necessity vide Notification Bombay Government dated 2nd February 1842.

A locumtenens is not entitled to any higher allowances in the event of the party, absent on sick leave for whom he is acting vacating the appointment, and in the event of his succeeding thereto the higher allowance to commence from date of appointment. Vide Notification by the Government of India, dated 17th August 1842.

2.—A servant is not allowed to be absent, retaining "Office or Employment," or portion of Official Salary, for a period exceeding two years; but extension of leave may be obtained on account of sickness duly certified, and during such extension the Absentee is authorized to draw the subsistence allowance of the rank. If the absence be beyond the Territories of the Presidency to which the Servant belongs, it is to be computed from the date of his quitting the limits of his Presidency to the date of his return within those

excess beyond Rs. 500 shall be deducted but for the second year, the full deduction shall be in force. An absent Servant, whether Civil or Military, shall in no case retain any civil office or employment, nor be permitted to draw any portion of official salary for a longer period than two years, but a Civil Servant who may on account of sickness, duly certified, obtain an extension of leave beyond two years, shall if his period of actual residence be less than 12 years, be allowed to draw the second rate of subsistence, and if the period of such actual residence be 12 years, the highest rate of subsistence allowance, but if he continue absent in disobedience of an order to return, or without sufficient cause shewn, that allowance also shall be forfeited. The period of absence shall be computed from the date of his quitting his Station to the date of his return thereto. Vide amended Section, passed 17th May 1843, Page 42.

Sec. VII. Civil Servants absent on leave on account of sickness, duly certified, if they proceed to England without returning to their Presidency, may as heretofore, apply to be admitted to Furlough by the Honorable the Court of Directors, and the Furlough in such cases take will effect from the date of leaving their Presidency, consequently the allowances of office that may have been drawn by themselves or their Agents after their departure, must in that case be re-adjusted, and the difference refunded.

Sec. VIII. No second leave will be granted to any Civil or Military Servant holding a civil appointment who has been absent under the above rules for two years, until three at the least shall have passed after the date of such Servant's return, but if such Servant is compelled by sickness again to absent himself from this station within three years after having been sent under the above rule for less than two years, he will be allowed to complete that period subject to the limitations and conditions heretofore prescribed, drawing the proportion of salary allowed for the remaining time as if the leave had been continuous.

A second leave of this kind cannot be granted until three years at the least shall have passed after the date of such servant's return, but any time short of two years in a previous absence may be subsequently allowed in completion of two years. The Note attached to section VIII. specifies that this Rule applies to all descriptions of leave on account of health excepting those granted under section XII. vide Resolution of the Govt. of India, dated 14th April 1843.

After two years of absence, continuous or accumulated,

(a) An absent servant shall in no case retain any office or employment nor be permitted to draw any portion of official salary, for a longer period than two years.

under these Rules if a servant obtain leave of absence on sick certificate before an interval has passed of three years, he cannot retain office or employment, or any portion of official salary, but he is entitled to the subsistence allowance of his rank. The rule in section VI., if literally interpreted, would require the servant returning from beyond Sea, whose full period of two years has been expired between the date of his embarkation, and the date of his return within the limits of his Presidency to be re-appointed to his Office. For the timespent in joining his station in excess of two years, he is entitled to draw only the subsistence allowance of his rank.

It is not provided that in cases in which the full period of two years absence is composed of accumulated leaves, the intervals of time passed in the performance of duty shall be reckoned in part of the three years which must expire before a servant is eligible to a new series of leave.

But if this were not allowed, the operation of the Rule might be unintentionally severe on a servant, whose health should compel him to obtain leave of absence for a portion of the two years, say for only a month, at the extremity of the three

years after the date of his return, the same servant having been already absent for 23 months either all at once, or his absence at different times having accumulated to 23 months : it would not have been intended by the Rule that after 35 months of duty being entitled to one month on the account of the old score, a new series of leave or a single instance of leave on sick certificate should not be obtainable for three years from the expiration of that one or 36th month.

The Rules do not prescribe any different rate of deduction from allowances during absence on sick certificate within the Territories of the East India Company and during similar absence at the Cape of Good Hope, or within the limits out of the Territories of the East India Company, declared in section IV. But they fix the computation of the servant's absence beyond the Presidencies to be from the date of leaving to the date of returning to the Port of his Presidency.

The Rules provide sufficiently for the audit of his allowances after two year's absence beyond Sea, until the servant re-joins his station, but they do not specify what rate of deduction is to be made from the Absentee's allowance for the time elapsing after departure from station and before embarkation. This therefore has required to be provided for by a new legislation, or by some exposition of the existing rules.

The Rule that admits of an absence of two years, enables a sick servant to reside sufficiently long in another climate under ordinary circumstances to re-establish his health ; for which object that protracted absence is permitted, when certified to be necessary. Forfeiture of appointment therefore, does not take place till a full two years have transpired between embarkation and return to Port. If the latter part of the section VI. be taken to computation of absence as respects appointment, the course of the audit will be easy : For two years reckoning from the departure from station, to return to station, the deduction will be as laid down at the commencement of the section, and for any excess whether occasioned by the time elapsing before embarkation or after return to port until return to station, the servant will be entitled to subsistence allowance without losing his appointment. Vide Resolution of the Govt. of India, dated 14th April 1843.

Sec. IX. Military Officers employed in the Civil Department and drawing a Civil allowance may obtain leave under medical certificate on precisely the same conditions as Civil Servants, except as to allowances. Such officers in common with those holding staff situations in the Military Department will draw the Military Pay and Allowances of their rank while absent on leave under medical certificate, in the form and manner prescribed in General Orders in the Military Department, and likewise one-half of the difference between such allowances and the civil pay of the offices to which they stand appointed.

Sec. X. Civil or Military Servants holding civil appointments who may desire to avail themselves of the benefit of the Act 1. Vic. Cap. 47. and to draw their allowances while absent on account of sickness under the above rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn, either by the Agents at the Presidency or by themselves, in case of their proceeding to Europe on Furlough or otherwise coming under retrenchment.

\* Sec. XI. The Government of each Presidency may granted to Civil or Military Servants holding civil appointments leave of absence for one month in each year without deduction from the salaries and emoluments drawn by such Servants. Such leave however will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officers seeking it. No second leave can be granted under this rule until the completion of eleven months from the expiration of the last leave, but Servants not availing themselves of the indulgence in any one year may obtain, under the like conditions, leave of absence for two successive months,

The design of this Rule is to grant one month's leave of absence without loss of Salary to the Servant who is present at his duty for the periods specified ; vide Resolutions of Govt. of India, dated 14th April 1844.

It in consequence of sickness a Servant exceeds the leave of absence granted to him under this Section he must be considered absent under the provisions of Chapter II. for the whole time of such absence, and the orders that would be passed on his Medical certificate application must be in conformity to those provisions and take effect for the whole period of absence ; vide Bombay Govt. Notifications, 8th June 1841. and 14th August 1844.

to commence at or after the expiration of 22 months from the termination of their former leave, and if two years elapse without enjoyment of the privilege, leave for three months may in like manner be granted at the expiration of 23 months from the termination of the last preceding leave. But no leave shall be granted under this rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this rule, he shall, if absent on private affairs, be subjected to the deduction of one-third of his salary and allowances for the entire term of absence, and if he shall continue absent for more than one month beyond the term granted, his office shall become vacant. If his protracted absence be occasioned by sickness, the case must be determined under the provisions of Chapter II. Vide amended Section passed 17th May 1843 P. 42.

A Civil Servant acting for another will have no claim to Commission or Fees, where any such sources of emolument exist. These will be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions. The grant of special allowances—of allowances to Commissioners, and other Officers of Districts or Assistants when employed on settlement or special police duties, will be regulated by a supplemental set of rules. When the entire sum received as deputation allowance may fall short of the which, according to the distance would be allowed for travelling expenses, the difference may be drawn. In all cases of absence under medical certificate, and in cases of absence on private affairs, when the absent Officer shall not be subject to deduction, such payments shall be made, at that charge of the Government, Vide amended Section passed 17th May 1843. The period of one month required by this section for a subordinate to act for his principal, or for any other person holding a superior appointment in the same Office or Establishment, without being entitled to any Deputation allowance, shall be held to apply to those cases only where the superior Officer is absent with leave under section XI. the President in Council of India having been pleased to allow that the one month without deputation specified in this section shall be held to be designed as an offset against a corresponding leave of one month granted under section XI to a superior Officer, free from deduction of allowances, in

## CIVIL ABSENTEE REGULATION.

tion, the following Extract, from a Resolution passed on the 16th ultimo, by the Right Hon'ble the Governor General of India in Council, on the subject of the allowances of Officers appointed to new situations, but who by the express order of Government may be prevented from entering immediately upon the duties thereof.

NOTIFICATION, Fort William, Financial Department, the 16th June 1841.

## RESOLUTION.

The Governor General in Council remarks, that the Rule referred to No. XVI of the Regulations of the 29th January 1840, requires in case of a change of Office, when an Officer is appointed to a higher situation, that he shall not draw the higher salary until he joins.

His Lordship in Council considers it expedient strictly to maintain this Rule as one of general practice, and that no exception ought to be allowed otherwise than under special circumstances and exigencies of the public service.

His Lordship in Council is further of opinion, that as a general rule, Officers ought not to be appointed to situations for the duties of which they are not immediately available.

When an Officer for the convenience of the public service has been detained by an order of the Government in a situation of inferior emolument after he has been promoted, in such case the practice under the Bengal Presidency is to pass to him the higher salary of his new appointment, during the period of his being so detained. This exception to the Rule XVI corresponds with the exception provided for in Rule XX under the Chapter for Deputation Allowances, in which it is declared that no Civil Servant temporarily officiating for another shall draw an amount larger than the entire emoluments of the office in which he is officiating, but that the prohibition does not apply to the case of an Officer who may be deputed for special reasons to act in an office of inferior emoluments to his own.

In order to ensure uniformity of practice at all the Presidencies in the application of Rules XIV, XVI and XVII, it is hereby explained that Rule XIV refers to the appointment of Civil Servants previously not appointed to a fixed situation after their return from furlough.

These Servants are entitled under Rule XIV to the allowances of their new office from the day of appointment, provided they do not come under forfeiture by exceeding the time prescribed for joining their station.

And Rules XVI and XVII are to be construed as applying to cases where there is a change of office, with increase of salary, a special course being prescribed with regard to Junior Civil Servants; they under Rule XVI are authorized to draw the salary of Assistant from the date of their being reported qualified for the public service, unless forfeited through delay in joining the station to which they have been appointed.

By order of the Hon'ble the Governor in Council,  
Bombay Castle, 15th July 1841. W. R. MORRIS, Secy. to Govt.

and those Junior to him, who have not passed an examination in a second language, will have no claim to promotion beyond their present appointments, until they have passed the requisite examination.

By order of the Honorable the Governor in Council,  
Bombay Castle, 22nd February 1849. W. R. MORRIS, Secy. to Govt.

## NOTIFICATION, General Department.

The Hon'ble the Governor requests that, when any Civil or Military Officer may have occasion to address him either direct or through any Member of his Personal Staff, on any official matter, the regular form of an Official communication may be adopted.

This rule is intended to extend to all Correspondences relating to Military or Civil Appointments, or to any question connected with them.

By order of the Honorable the Governor in Council,  
Bombay Castle, 24th August 1842. W. R. MORRIS, Secy. to Govt.

## NOTIFICATION, General Department.

The Hon'ble the Governor in Council is pleased particularly to enjoin the attention of Civil Servants and others, coming under the same Absentee Regulations, to the Orders of the 9th August 1831, and 23rd November 1835, and in accordance with those Orders to lay down, the following Form of a Letter to be observed in all applications for Leave of Absence.—Parties not conforming to these instructions will be liable to have their Letters returned unanswered.

Rules passed by the Government of India; to have effect within the limits of this Presidency from this date;—

**FORT WILLIAM, FINANCIAL DEPARTMENT.**

17th May 1843.

The Hon'ble the President in Council, with the concurrence of the Right Hon'ble the Governor General, has revised the Rules published on 29th January 1840 for to grant of leave of absence, and for regulating deductions from Salaries and Deputation Allowances. **Sec. VI. (Amended.)** Civil Servants absent from their Stations under Medical Certificate, within the limits of their respective Presidencies, shall be entitled to the Salaries of their Offices for the period of two years, subject to a deduction of  $\frac{1}{3}$  for the whole term of such absence, save and excepted that for the first year, if the Salary be not more than 500 Rupees per mensem, no deduction shall be made, and if it be only so much more than 500 Rupees that the prescribed deduction of  $\frac{1}{3}$  would reduce the allowance below that sum, only the excess beyond Rupees 500 shall be deducted, but for the second year, the full deduction shall be in force. An absent Servant, whether Civil or Military, shall in no case retain any Civil Office or employment, nor be permitted to draw any portion of Official Salary for a longer period than two years, but a Civil Servant who may, on account of sickness duly certified, obtain an extension of leave beyond two years shall, if his period of actual residence be less than 12 years, be allowed to draw the second rate of subsistence allowance, and if the period of such actual residence be 12 years, the highest rate of subsistence allowance, but if he continue absent in disobedience of an order to return, or without sufficient cause shewn, that allowance also shall be forfeited. **Sec. XII. the presidency whereof he was Governor General, Governor, Councillor or Commander in Chief, except by some deed or instrument in writing under his hand and seal, delivered to the Secretary, in the Public Department of the same presidency, in order to its being recorded; shall be deemed or held as a resignation, or surrender of his said office; and that the salary and other allowances of any Governor General, or other Officers respectively, shall cease from the day of his departure, resignation or surrender, and that if any such Governor General, or any other Officer whatever, in the service of the Company, shall quit or leave the presidency or settlement to which he shall belong, other than in the known actual service of the said Company, the salary, and allowances appertaining to the Office shall not be paid or payable during his absence to any agent or other person for his use, and in the event of his returning back to his station at such presidency or settlement, or at his coming to Europe, his salary and allowances shall be deemed to have ceased from the quitting such presidency or settlement, any law or usage to the contrary notwithstanding.

### FILLING UP VACANCIES IN THE CIVIL LINE.

LVII. And be it further enacted, that all vacancies happening in any of the Office, places, or employments in the Civil line of the Company's Service in India (being under the degree of Councillor,) shall be from time to time filled up and supplied from amongst the Civil Servants of the said Company, belonging to the presidency wherein such vacancies shall respectively happen, subject only to the restrictions in this act contained, and not otherwise (that is to say,) that in the filling up and supplying such vacancies, no office, places, or employment, the salary, perquisites, and emoluments whereof shall exceed five hundred pounds per annum, shall be conferred upon or granted to any of the said servants who shall have not been actually resident in India as covenanted servant of the said Company for the space of three years at the least in the whole, antecedent to such vacancy, and if the salary, perquisites and emoluments of any office, place, or employment, shall exceed three thousand pounds per annum, the same shall not be granted to or conferred upon any of the said servants who shall not have been actually resident in India in the said service for the space of nine years at the least in the whole, antecedent to such vacancy; and if the salary, perquisites, and emoluments of any office, place, or employment shall exceed three thousand pounds per annum, the same shall not be granted to or conferred upon any of the said servants, who shall not have been actually resident in India in the Company's Service for the space of nine years at the least in the whole; and if the salary, perquisites, and emolument of any office, place, or employment shall exceed four thousand pounds per annum, the same shall not be granted to or conferred upon any of the said servants, who shall not have been actually resident in India in the Company's Service for the space of twelve years at the least in the whole, antecedent to such vacancy; and that all appointments, advancements and promotions which shall be made for supplying any such vacancies, other than as aforesaid, shall be null and void.

### EXTRACT FROM A PUBLIC GENERAL LETTER FROM THE HONORABLE COURT OF DIRECTORS, DATED THE 12th OF JUNE, 1816.

PARA. 20. We perceive by the abstract of Act LIII. of his present Majesty chapter 155, annexed to your list of the Civil Servants, dated the 31st of May 1814, that according to your construction of that Act, a Civil Servant may upon his arrival, in India, receive £1,500 a year, but this is most assuredly a mistake. The Act above mentioned, has shortened the period to two years which it was required previously to the passing of that Act, for a servant to have resided in India, to enable him to receive more than £1,500; 3,000, or 4,000 a year, but it has not shortened the period which it was required, previously thereto, for a servant to have resided as above mentioned, to enable him to receive more than £500 a year, consequently that remains the same as it was before the said Act was passed, namely; three years, allowing with respect to the Servants educated at Hertfort College, the time not exceeding two years passed in that institution, after they were seventeen to be considered as time passed in India; and this will be your future guidance.

### ACT LIII. OF GEORGE III, CHAPTER CLV.

LXXXII. And whereas a strict adherence to the Provisions contained in the

said Act made in the thirty third year of his present Majesty's reign in respect to the filling up and supplying vacancies in the Civil Service of the said Company has been found impracticable without detriment to the public service, or injury to the just claims and meritorious exertions of individuals; and whereas a modification of the said Act has been in part adopted in the Act of the forty seventh year of his present Majesty relative to the scholars educated at Hertford College; be it therefore enacted, that from and after the passing of this Act any office, place, or employment, the salary and perquisites whereof shall exceed the sum of fifteen hundred pounds, may be granted to and conferred upon the said servants who shall have been actually resident in India in the said Company's Service for the space of four years at the least in the whole, antecedent to such vacancy, and if the salary, perquisites, and emoluments of any office, place, or employment shall exceed the sum of three thousand pounds per annum, such office may be conferred upon any of the said servants who shall have been actually resident in India seven years at the least in the whole; and if the salary, perquisites and emoluments of any office, place or employment, shall exceed four thousand pounds per annum, such office, including that of the Council, may be granted to or conferred upon any of the said servants who shall have been actually resident in India in the Company's Service for the space of ten years at least in the whole.

RANK OF CIVIL SERVANTS RETURNING TO INDIA AFTER FIVE YEARS ABSENCE IN EUROPE.

LXXXV. And be it further enacted, that when and as often any person having held any Civil situation in India, in the service of the said Company, and having departed from India by leave of the Governor General in Council, shall be restored to the Company's service after an absence of five years from the time of such departure, such person from and after such restoration shall take rank and precedence on according to the time he shall have passed in the service of the said Company at the period of his departure from India, and on his return to India, if any other Civil Servant or Servants at the settlement to which he shall belong, shall have then passed a greater or the like length of time in the service of the said Company, as the person so restored had passed when he left India, the person so restored shall be placed and take rank immediately below such other Civil servant or servants; any matter or thing, to the contrary notwithstanding.

PRECEDENCE IN THE CIVIL SERVICE IN INDIA.

LXXXVI. And whereas by the said Act of the Parliament of Great Britain of the thirty-third year of his present Majesty's reign it is enacted that all the Civil servants of the said United Company in India, under the rank or degree of Member of Council shall have and be entitled to precedence in the service of the said Company at their respective stations according to the seniority of their appointment. And whereas the several Governments of the said Company are often prevented from appointing meritorious servants of the said Company to be Members of Courts, Boards, and other official establishments, where office or employments are exercised by several servants of the said Company collectively lest by such appointment one or more Members of such Court, Board, or other establishment should be superceded; be it therefore enacted that it shall and may be lawful for any Governor General in Council of the said Company if he shall think

proper, upon application in writing for that purpose by any Civil servant of the said Company desirous of being appointed a Member of any such Court, Board, or Establishment, by special order to direct that such servant of the said Company on being appointed to any office or employment in any such Court, or other establishment, although such Civil servant, in respect of whom such order shall be made, may hereby not take precedence at or in such Court, board, or other establishment, according to the seniority of his appointment to the service of the said Company; and such civil servant shall thereupon take precedence at such Court, Board, or other establishment accordingly, the said Act or any other matter or thing to the contrary notwithstanding.

#### ACT VII. OF GEORGE IV. CHAPTER LVI.

Extract from an Act to suspend the provisions of an Act of His late Majesty respecting the appointment of Writers in the service of the East India Company, and to authorize the payment of the allowance of the Civil and Military Officers of the said Company dying while absent from India. [20th May 1826.]

III. And whereas by an Act passed in the thirty-third year of the reign of His late Majesty King George the Third, intitled an Act for continuing in the East India Company for a further term the possession of British territories in India, together with their exclusive trade, under certain limitations; for establishing further regulations for the Government of the said territories, and the better administration of justice within the same for appropriating to certain uses the revenues and profits of the said Company, and for making provision for the good order and Government of the Towns of Calcutta, Madras and Bombay; it was enacted, that if any Governor General, or any other officer whatever in the service of the Company, should quit or leave the presidency or settlement to which he should belong, other than in the known actual service of the said Company, the salary and allowance appertaining to his office should not be paid or payable during his absence to any agent or other person for his use; and in the event of his not returning back to his station at such presidency or settlement, or his coming to Europe, his salary and allowances should be deemed to have ceased from the day of his quitting such presidency or settlement, any law or usage to the contrary notwithstanding. And whereas it hath happened that officers, as well Civil as Military, in the service of the said Company, who have quitted the presidencies or settlements to which they respectively belonged in consequence of ill health with the intention of returning to their stations at such presidencies or settlements without proceeding to Europe, have died during such temporary absence within the limits of the said Company's charter, or at the Cape of Good Hope; and whereas it is just and reasonable that the representatives of such officers should be entitled to the salaries and allowances of such officers from the time of quitting their stations; be it therefore enacted, that it shall and may be lawful to and for the said Company to cause payment to be made to the representatives of officers in their service Civil or Military, who having quitted or left their stations, and not having proceeded or intended to proceed to Europe, but intending to return to their stations, have died, or may hereafter happen to die, during their temporary absence within the limits of the said Company's charter, or at the Cape of Good Hope, of such salaries and allowances, or such portion of salaries and allowances, as the officers so dying would have been entitled to, if they had returned to their stations.

IV. And whereas certain payments have heretofore been made under the circumstances aforesaid, be it further enacted, that all such payments so made shall be deemed and taken to have been legally made; any thing in the said recited Act of Parliament to the contrary notwithstanding, provided always, that nothing herein contained shall extend to authorize the said Company to make any such payment to the representatives of any such officer who shall have quitted or left his station prior to the second day of May, One Thousand Eight Hundred and Twenty One.

#### ACT X. OF GEORGE IV. CHAPTER XVI.

An Act to continue the operation of an Act of the seventh year of His present Majesty for suspending the provisions of an Act of His late Majesty respecting the appointment of writers in the service of the East India Company, and to amend the provisions of an Act of the forty-seventh year of his late Majesty, so far as they relate to the period of residence at Hertford College as a qualification for certain offices.

[14th May, 1829.]

Whereas an Act was passed in the seventh year of the reign of His present Majesty intituled an Act to surpend the provisions of an Act of His late Majesty respecting the appointment of writers in the Service of the East India Company, and to authorize the payment of the allowances of the Civil and Military Officers of the said Company dying while absent from India. And whereas it is expedient to continue, for a time to be limited, the provisions of the said Act of the seventh year of His Majesty, so far as the same relate to the appointment of writers in the service of the East India Company, and to the establishment of rules and regulations respecting their qualifications. May it therefore please your Majesty that it may be enacted; and be it enacted by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual, Temporal and Common in this present Parliament assembled, and by the authority of the same, that the provisions of the above-mentioned Act of the seventh year of His present Majesty, so far as the same relate to the appointment of Writers in the service of the East India Company, and to the establishment of proper rules and regulations, respecting the qualifications of such writers, shall continue and be in force until the tenth day of April, one thousand eight hundred and thirty-four.

And whereas by virtue of an Act passed in the forty seventh year of the Reign of His said late Majesty, all such time as shall be *bona fide* spent in the College established in England by the East India Company for the education of their Civil servants, by any persons after they shall respectively have attained the age of seventeen years is accounted as to certain offices, places and employments which such persons are entitled to hold in India, as so much time actually spent in India, provided that such persons shall either before or after seventeen years of age have spent two years at the least in the said College. And whereas it is expedient that the privileges so granted should under certain circumstances, be extended to young men who may have spent less time than two years in the regular course of education at the said College; be it therefore enacted, that all such time not exceeding two years as shall have been or shall be *bona fide* spent in the said College in the regular course of such education as aforesaid by any person after they shall respectively have attained the age of seventeen years who shall have proceeded or shall hereafter proceed to India in the Civil Service of the Company, shall be accounted as to all offices, places and employments to which such persons are entitled to be appointed and to hold, the salary, perquisites and emoluments whereof shall not exceed the sum of one thousand five hundred pounds, *per annum*, as so much time actually spent in India; any law or usage to the contrary thereof in any wise notwithstanding.

SEC. 1st. There shall be General Meetings of the Members of the Institution held quarterly, on the 1st day of May, the 1st day of August, the 1st day of November, and the 1st day of February in each year, or some day as early as possible after each, if those days should not be convenient, a public notification of the day on which the Meeting is to be held being given in the Government Newspaper.

SEC. 2nd. At these Meetings, the Committee shall make a report of all matters relating to the affairs of the Institution and Fund, which have occurred since the last General Meeting, and shall once in each year submit an account of the state of the Fund, and of the probable claims upon it for the ensuing year, together with a statement of the Extra charges which may necessarily have been incurred on account of the management and concerns of the said Fund. But no matter not brought forward by the Committee in their Report, or directly arising out of it, shall be agitated or discussed at such General Meetings unless sufficient notice thereof has been given to the Committee to enable them to con-

communicate the same to every Member resident at the Presidency, and such communication shall have been made.

Sec. 3rd. The unanimous vote of the Members present shall decide all propositions connected with the Bombay Civil Fund brought forward at a General Meeting, unless the subject be of sufficient importance to require a reference for the opinion and votes of the Members at subordinate stations, but the concurrent voice of, at least, nine Members shall be requisite to determine upon any question whatever.

Sec. 4th. It shall not be competent for a General Meeting to decide without reference to the Subscribers at large on any questions involving an alteration in the rates of contribution to the Fund, in the rates or grant of Pensions or Annuities, or any addition to or change of, the Rules and Regulations of the Institution.

Sec. 5th. If any one Member present at a General Meeting shall consider any proposition of sufficient importance to be referred to the subscribers at large, and shall vote to the effect, it shall be so referred, and the further discussion of the subject shall be renewed at the first Quarterly General Meeting which may be held after the receipt of the opinions and votes by letter or proxy of the Members at subordinate stations.

Sec. 6th. All amendments to propositions so referred shall be transmitted with the propositions themselves for the votes of the Members at subordinate stations as well as any observations which may be offered in writing upon such questions, either by the proposer or by any other Members, in support of or in opposition to the same, those from Members at subordinate stations, in cases of importance, being called for by the trustees and circulated for the general information of the Members before this collection of their votes.

Sec. 7th. Any Member intending to submit any suggestion or amendment to a proposition, must give timely information thereof to the Secretary in order to prevent confusion, or prejudice to absent Members.

Sec. 8th. All propositions so referred shall be considered to be, and shall be negatived; that is, the Rule of the Fund as it previously existed shall not be changed, unless supported by a majority of three fourths of the collective votes given either in person at the Presidency, or by letter or proxy from subordinate stations at such General Meeting as may be convened for that purpose.

Sec. 9th. The Committee or any nine Members of the Institution may, if occasion require, convene a special General Meeting at the Presidency by public notice in the Government Paper, provided that the day fixed for holding such special General Meeting be advertised, and the object or objects for which it is convened be communicated to the committee in sufficient time to enable them to give full information thereof to every Member resident at the Presidency.

Sec. 10th. At all General Meetings of the Members of the Fund, the Senior Member in the service there present, shall preside.

Sec. 11th. No Member while resident at Bombay or beyond the Company's limits, shall at any time be allowed to vote by proxy or letter at any General Meeting of the Fund, except in case of ill health, when he is resident in Bombay, and then his proxy shall be notified by letter to the Secretary to the Fund.

Sec. 12th. As general inconvenience and injury might arise from the delay attending a reference of questions to subscribers holding situations or residing up the Persian Gulf or Red Sea, or beyond the regular course of the Dawk, intimation of questions referred for the votes of Subscribers is not to be communicated to Members so situated, but they are at liberty to vote at General Meetings by proxy.

Sec. 13th. Every Member who shall have been appointed and duly authorized to act as proxy, for anyone or more absent Members, shall before he is allowed to act as such proxy, signify to the Meeting at the commencement thereof his intention of so doing, and shall produce the required authorities to act as proxy, and the same shall be registered with names of the Members present.

Sec. 14th. No one Member shall, at such General Meeting, be allowed to vote as proxy for more than three absent Members.

parties considering themselves aggrieved by such decision shall have a right of appeal, and the decision of the Honorable the Court of Directors shall in all cases be final.

In calculating this minimum amount, though the Annuity to each child is, as herein provided, to depend on the contribution paid, the subscriptions received are to be taken collectively, and the deduction to be made is to be determined in the like manner. In cases of second or other Marriages, the Subscriptions, in estimating the minimum demand, are to date from the previous wife's decease, but in the adjustment of the minimum payment, the subscriptions paid during a first, second, or other marriage are to be taken as a deduction for the claims of the children born during the existence of each marriage respectively.

SEC. 6th. Payment of the several contributions shall be made on the 1st day of each month, and shall be deducted from the Abstract of Civil Servants by the Subbursing Officers at each Station.

**Sec. 11th.** The word contribution is to be understood only as including the monthly contributions of a Member according to the rates hereinbefore specified, and not any sum which he may have paid as penalty or repayment of any former sum granted, lent, or advanced by way of Pension, Allowance, or former Annuity.

Or, at the age of sixteen, an option shall be allowed to each Daughter of receiving in lieu of all other annuity and donation an annuity of (£60) sixty pounds sterling so long as she may remain unmarried.

SEC. 3rd. On the death of any Member of the Fund leaving a child or children born in lawful wedlock, for whom no additional subscription has been paid, an allowance shall be made from the Fund to be paid in England or in India, as circumstances may require, according to the following rates:—

Till such child shall have attained the age of five years, Rupees (30) thirty per mensem in India, or (£30) thirty pounds sterling in England.

From 5 until it shall have attained the age of eight years, Rupees (40) forty per mensem in India, or (£40) sixty pounds sterling per annum in England.

From 8 until the end of its eleventh year, Rupees (50) fifty per mensem in India, or (£50) eighty pounds sterling per annum in England.

From 11 until the end of his sixteenth year, if a Boy, or of her eighteenth year if a Girl, Rupees (60) sixty per mensem in India, or (£100) one hundred pounds per annum in England.

On attaining his sixteenth year, a sum not exceeding (£500) five hundred pounds sterling shall be appropriated to each Son, payable to his Guardian or Guardians for his setting out in life.

On attaining her eighteenth year, a sum not exceeding (£500) five hundred pounds sterling shall be appropriated to each Daughter, payable to her Guardian or Guardians for her setting out in life. Or if married before she shall have attained the age of 18, then the donation of £500 shall be payable to herself or to her husband, her claim on the Fund ceasing.

Or, at the age of sixteen, an option shall be allowed to each Daughter of receiving in lieu of all other annuity and donation an annuity of (£60) sixty pounds sterling so long as she may remain unmarried.

SEC. 4th. In the case set forth in the two first Sections of this Article, the Pensions and Doucours to which the children are entitled shall not be reduced by reason of any property which their Parents may have possessed, or to which they may be entitled from any other source. In the case set forth in Section III the allowance to each child is liable to be curtailed in proportion to the property left by the deceased Member or otherwise inherited, as specified in the following Sections.

SEC. 5th. If the Child or Children have a mother at the time of the death of its or their Father, and her income shall exceed (£500) five hundred pounds sterling a year, then and in such case such allowance only shall be made as taken together with the overplus above the income specified, shall make up the sum hereby intended to be provided for the maintenance and education of the Child or Children. The same deductions from the sums hereinbefore named and intended to be provided, shall be made in case the Father of such Child or Children, or any other person shall have made any provision for it or them by will or otherwise, which shall not amount to the sum hereby intended to be provided for such Child or Children.

SEC. 6th. And it is specially to be understood that no pension whatever is to be made for any Child or Children by whose Father the additional subscription has not been paid, the amount of whose income, derived from whatever source, exceeds the allowances to be provided by this Article, and if at any time after the death of its or their Father provision shall be made for such Child or Children from any other source exceeding or not equalling the amounts hereby intended to be given, that then and in such case the provisions hereby intended to be made shall cease or be proportionally abated.

SEC. 7th. In estimating the income of a Child or Children.

1st. Legacies and bequests to the Widow, and her separate property of any kind, shall not be considered as forming part of the income of the Children, but the property left by a deceased Member is to be considered as the property of the Widow and Children collectively in settling their claims on the Fund.

2nd. In case the income shall consist wholly in Annuities for lives or for years, the value of such annuity shall be taken at the fair price such annuity would be worth if exposed for public sale.

3rd. The income shall be calculated in the manner defined in Article 15 and 16.

SEC. 8th. 1st. The Pensions granted by this Article shall be paid half yearly in arrears.

2nd. To their Guardians and Relations having the care of them, or to such persons as may be entrusted with the disbursement of them by the Managers of the Fund in India, or by the Agents in England.

3rd. The person or persons receiving the same shall sign such acknowledgment as is required from Widows under Article 11, Section 5, the same restriction as to assignment existing in this case.

SEC. 9th. In case of any Child or Children becoming pensioners upon this Fund in India, and it shall be thought expedient by the Relations or Guardians of such Child or Children, or by the Managing Committee of the Fund (in case they are left wholly in an orphan state), that such Child or Children should be removed to Europe, and they have no other Funds out of which the expenses can be defrayed, such Child or Children shall be entitled to a grant of such sum or sums of money as may be considered requisite for the purpose.

The amount of such grant or donation shall be in the discretion of the Committee of Managers for the time being, but shall in no case exceed Rupees 1000.

SEC. 10th. Any Child who may hereafter be a pensioner on the Fund, under Section III. of this Article, and subject to the restriction in regard to property, who may from blindness, insanity or such like infirmity, be totally incapable of earning a subsistence, shall at the age of 16 years have the option of receiving a donation of £500, on accepting which all further claim upon the Fund shall cease, or such Child may by him or herself or Guardians waive all claim to the donation of £500, and shall then be allowed an Annuity of £80, during the continuance of such incapacity.

SEC. 11th. The actual value of all Annuities granted under this and the preceding Article, as well as those already granted, shall be passed to a separate account on the Books of the Institution under the head of "Appropriated Funds

of the Provident Fund," agreeably to the value shown in the annexed Tables, and by which Tables the one third minimum value is also to be determined.

SEC. 12th. At the close of every fifth year the Trustees shall, according to these Tables, calculate the actual values of the pending Annuities to Widows and Children of deceased Members, and shall then compare the total of their values with the assets belonging to the appropriated Funds of the Provident Branch of the Institution—Should these assets exceed in value of the said total, the difference shall be transferred back to the credit of the Unappropriated Funds of the Provident Branch, and be available for the purposes of the Institution; on the other hand, should the value of the said assets be less than the total aforesaid, the deficiency shall be supplied by a transfer from the latter Branch to the former.

SEC. 13th. At the same period, or quinquennially, the Trustees shall prepare and submit a complete valuation of the Assets and Liabilities of the Unappropriated Funds of the Provident Branch, and found thereon a recommendation for an increase or decrease of the contributions according to the apparent necessities of the Institution.

### ARTICLE XIII.

#### FORM AND CONDITIONS OR ADMISSION TO THE BENEFITS OF THE PROVIDENT FUND.

SEC. 1st. All applications for admission to the benefits of the Fund shall be made to the Committee of Managers and Trustees for the time being, accompanied with the necessary documents, proofs, and information, to enable the Committee to ascertain the situation and circumstances of the party in whose behalf the application is made.

SEC. 2nd. The Committee of Managers and Trustees after calling for any further information or evidence which may appear to them to be requisite, may admit the claim, if in every respect conformable to the Regulations; but if there be any irregularity, they are to submit the application with the whole of the papers received by them for the determination of the Members, at the next General Meeting.

SEC. 3rd. In cases of emergency or distress however, when the Committee may consider that the party for whom application is made is entitled to the benefits of the Fund, notwithstanding any irregularity in the application, the Committee shall have the authority to advance such proportion of the allowances hereinbefore fixed and specified, as may appear to them indispensably requisite, till a determination can be finally made upon the application by the General Meeting.

SEC. 4th. It shall be requisite in all cases of application made to the Fund for assistance to the Children of a deceased Subscriber, subject to the restriction in regard to property and coming under the Provisions of Section III. of the preceding Article, that an authenticated copy of the Will of the deceased, or if he shall have died intestate, that a full and authentic statement of any property left by him, and of the legal claimants thereto, be submitted for the information of the Managers and Trustees.

### ARTICLE XIV.

#### RIGHT OF MEMBERS TO ANNUITIES.

SEC. 1st. Every Member who has been actually twenty five years in the Service, including one furlough to England, not exceeding three years absence from India, and who has resided twenty two years in India, shall be entitled in turn to the offer of any Annuity of £1000 which may be vacant, according to his seniority in the Service, and his right of precedence from which seniority shall not be barred by his refusal in a preceding year, whether he is resident at the time in India or in England.

SEC. 2nd. In case of an equivalent amount of the foregoing Annuities, within the limits prescribed by the Honorable Court, remaining unappropriated, Annuities will be granted at the following rates of Members, who, after a residence in India as therein stated, shall previously to completing the prescribed term of twenty two years' residence, be compelled by illness to leave India with the intention of quitting the Service, such illness to be certified by the Medical Attendant of the Subscriber, and countersigned by a Member of the Medical Board, and confirmed in each instance of retirement by the Examining Physician to the Honorable Company, after the Member shall have completed a subsequent residence in England of at least twelve months.

After a residence of fifteen years.....£500 per annum.

After a residence of ten years.....£250 per annum.

If before ten years' residence.....a donation of £500.

SEC. 3rd. The period of Service commences with the date of appointment as a Writer, or the date of the Covenant, whichever is prior. The period of residence from the date of arrival at the Presidency.

SEC. 4th. A Member of the Service, who, being in England or on the way to England when the new Regulations were assented to at Bombay, and not having therefore yet assented to them, and who shall not be in India or on the way thither on or before the first day of March, 1827, shall not be entitled to hold an Annuity until he shall have resided five years in India after his return to the Service.

SEC. 5th. Any Subscriber who may accept the tender of an Annuity of £1000, or who may apply for one of the smaller Annuities, shall be required to entitle him to such Annuity to pay to the Institution previous to the date at which the Annuity is to commence, the difference between one half (temporarily one fourth in the case of the Annuity of £1000 as sanctioned in the Honorable Court's Dispatches of the 27th May 1836, and 20th March 1838) of the actual value of the Annuity on his life, in Sicca Rupees, and the accumulated value of his contributions, with interest at 6 per cent. per annum, in case the latter quantity shall be less than the former, but should the contributions be in excess, such excess shall be refunded. Such Annuity, if required may be made payable either to the date of decease only, or quarterly and to the date of decease, the benefit of the quarterly issue of the Annuity not being available singly, upon the payment of the full value, of the increased advantage, as shewn in the annexed Table.

SEC. 6th. Any Member so choosing, may decline paying the difference defined in the foregoing rule, and shall in such case be entitled to an Annuity diminished in proportion to the sum by which the accumulated value of his contributions is less than one half (temporarily one fourth) of the actual value of an Annuity on his life.

SEC. 7th. The declaration of the willingness of any subscriber to accept an Annuity must be stated "on honor," and a subscriber so accepting the Annuity shall at the same time furnish the Secretary and Accountant to the Fund with his Baptismal Certificate or a declaration "upon honor" of his age.

SEC. 8th. The resignation of the Honorable Company's Service is an essential condition to entitle an individual to an Annuity from the Institution, and Annuityants will not be permitted to return to the Service. It is therefore provided that when a Member accepting an Annuity shall resign the Service after the first day of May of the year within which the said Annuity is made to commence, he shall in such case at the close of that year only draw the Annuity from the date of his resignation, a sum proportionate to the time intervening between the first day of May and that date, being deducted for the benefit of the Institution, and the premium which was due on the first day of May preceding being paid.

SEC. 9th. The Annuities are fixed at Rupees 10,000, Rupees 5,000, and Rupees 2,500, payable in England at 2s. the Rupee being respectively, unless made payable quarterly, and to the day of death, £1,000, £500, and £250 Sterling.

SEC. 10th. The number of Annuities offered shall not be more than may complete three (3) per annum from the 1st May 1826, which number is also to include any of £400 to persons, who on the 1st of May 1825, had not retired from the Service, either by resignation or by an absence of more than five years from India; but this number is not intended to include the smaller Annuities granted to invalids.

SEC. 11th. The Annuities shall commence on the first of May in each year, beginning with the year 1826, that is to say, shall fall due at the end of the said official year, and in like manner the succeeding Annuities shall commence on the 1st day of the following official year, and fall due at the close of each year respectively. The quarterly payments will be made on the 1st days of February, May, August, and November in each year.

SEC. 12th. No Annuity shall be tendered for acceptance to any Member who may be at the time of its falling vacant, under temporary suspension by order of the Government or the Court of Directors, but in such case it shall pass on to the

next Member in succession who may be entitled to the acceptance of it, unless such Member shall have been restored to the Service before it shall come to his turn to have it tendered to him for his acceptance.

SEC. 13th. At a convenient period before the close of each year the Trustees of the Fund shall require, according to seniority, a sufficient number of Subscribers to signify their willingness or otherwise to retire on the Annuity to be granted by the Fund, and in case of the absence from India of Members, such requisition shall be made to their constituted Agents in Bombay. It will of course be incumbent on the Members duly qualified to become Annuitants previous to leaving India to empower one or more persons in Bombay to act on their behalf, and to communicate to the Trustees the names of such Agents. Such Members previous to quitting India must leave information of their age either in the Civil Fund Office or with their Agents, agreeably to Section 7 of this Article, and should likewise intimate in what manner they wish to draw their Annuities, whether annually, annually and to the day of death, or quarterly and to the day of death, to enable the amount of the chargeable to them on their accepting Annuities to be calculated.

SEC. 14th. Those Members, to whom a requisition may be made as above provided, and on whose part no reply may be received on or before the 1st day of November of the year preceding that in which the Annuities intended to be granted may commence, and those who may have quitted India and failed to empower any resident in Bombay to act for them during their absence, shall be regarded as Annuitants.

SEC. 15th. Should any Subscriber, having resided in India in the Civil Service not less than 22 years, and been a Member of it, the full period of 25 years, retire from the Service before the option of an Annuity may devolve on him, he shall be entitled to the same in his proper turn without any payment to the Fund, save what may be claimable from him to complete the fine of one half (on one fourth) of the actual value of the Annuity on his life, on taking up such Annuity.

SEC. 16th. The right of an Annuitant to receive the Annuity for any particular year shall depend on his having survived that year unless the same has been secured to the date of decease, as provided for in Section 5th of this Article.

SEC. 17th. The actual value of Annuities, tendered and accepted as above, shall be passed to a separate account on the books of the Institution, under the head of "Appropriated Funds," and to the debit of this account shall be entered all payments in satisfaction of Annuities.

SEC. 18th. At the close of every third year the Managers shall, according to the Annexed Tables, G. H. and I. calculate the actual values of the pending Annuities, and shall then compare the total of their values with the assets belonging to the appropriated Funds of the Institution. Should those assets exceed in value the said total, the difference shall be carried to the credit of the unappropriated Funds of the Annuity Fund, and be available for the purpose of the Institution; on the other hand, should the value of the said assets be less than the total aforesaid, the deficiency shall be supplied by transfer from the latter Fund to the former.

SEC. 19th. In discharge of each Annuity of Rupees 10,000, Rupees 5,000, or Rupees 2,500, granted by the Fund, the sums of £1,000, £500 or £250 as the case may be, shall be paid to the Annuitant through the Company's Treasury in London at the close of the year in which the Annuity may commence or according as the instalments may fall due, in the case of quarterly payments the Trustees of the Fund undertaking at the like periods to pay over to the Government of Bombay the equivalent sums for each Annuity so payable under the principles upon which the Company's contribution is to be regulated - including the payments for the quarterly issues and for the payments to the date of decease.

SEC. 20th. The actual value of an Annuity of any Subscriber, as well as the additional payments for its continuance to the date of decease, or for its quarterly issue and continuance to the date of decease, shall be determined by the annexed Table.

SEC. 21st. In computing the amount of fine to be paid into the Treasury by a Subscriber previous to his becoming an Annuitant, credit shall be given him for the total amount of his Subscriptions to the New Fund since the 1st of May 1825, with compound interest at the rate of 6 per cent, together with his subscrip-

tions to the Old Fund without interest up to the 1st May 1825, in the same proportion as the Capital transferred to meet the Annuities bears to the whole Capital of the Fund.

Sec. 2nd. To determine the accumulated value of the contributions of any Subscriber, the Accountant shall keep separate accounts of each Member, and these accounts shall be annually made up with the rate of interest allowed by the Company.

Sec. 3rd. A Member upon becoming an Annuitant, and expressing his wish to receive his annuity in England, shall be furnished with a formal certificate declaratory of his admission to the Annuity, and of the manner in which it is to be drawn by him under the hands of not less than five Members of the Committee of which the Secretary shall be one. A duplicate of this Certificate shall be furnished to the Government for transmission to the Honorable Court of Directors in London.

Queen's Officers on the Personal staff of the Governor, the Commander in Chief of General Officers, are not entitled to Regimental allowances when they do not belong to Regiments in India.

All Staff officers, whose stations are 200 miles from Bombay receive Field allowances.

(a) These officers, if at Bombay on duty, receive Presidency House rent (which includes Regimental House rent, and Tentage to those entitled to that allowance,) viz:—

|                              |                   |

| Captain or Surgeon .....     | „ 135 do.         |
| Subaltern or Assist. Surg .. | „ 90 do.          |

Commissariat officers stationed at Bombay receive half Tentage in addition to Presidency House rent.

Field officers on the Staff at the Presidency, who draw only half Batta, with Tentage and Regimental House rent, and whose allowance would be reduced by their being placed on superior House rent, are to continue to draw their allowances as heretofore.

(b) These officers receive ordinary House rent (as per G. O. 29th October 1830, No 576) in lieu of Regimental House rent or Tentage or both. Those incumbents, on the 29th October 1830, who would suffer a loss of allowances thereby continue to draw Regimental House rent with Tentage

Bombay Castle, 10th June 1841.

No. 300. The pay of the European Troops at the three Presidencies having been assimilated, and the Government of India having authorized the issue of the same in arrear, agreeably to the practice observed under the Bengal Presidency, the following rules are laid down for the gradual accomplishment of that object.

The pay of the European Commissioned officers of the Company's Service will be paid in arrear in conformity with instructions issued, to Pay-master under the decision of Government, dated the 8th February 1838, namely—All officers entering or returning to the service from Europe and all those promoted, will not be allowed to draw net pay in advance. The period fixed for the commencement of this arrangement was the 1st February 1838, a reference to the date of the Officer arrival in, or return to this country, or to that of the General Order announcing his promotion will enable the pay and audit departments to ascertain readily whether the pay of any Officer has or has not been thrown into arrear.

The pay of the European Soldiers of the Company's service arriving from Europe after the 1st May 1841, will be paid in arrear, and of the Non-Commissioned Officers and Soldiers previously in the service, (though actually paid in advance) will be considered as paid in arrear from the above date and issued in every respect in the same manner as the pay of the Men drawing pay in arrear, with this exception, namely,—That when such men become casualties the pay overdrawn shall be deducted from the abstract as at present.

Her Majesty's Troops, both Officers and men of Regiments now on this establishment, and all who may hereafter join those Regiments from Europe or elsewhere will continue to draw pay in advance as at present, but those belonging to Regiments placed on this Establishment after the 1st May 1841, will draw pay in arrear.

The aggregate monthly amount of the pay and allowances of the Officers of the relieving Regiments will be precisely the same as that drawn by Company's Officers of corresponding ranks, the following Table shews the items included in the aggregate sum.

Bombay Castle, 30th September 1837.

No. 436.—The Right Honorable the Governor in Council, with a view to a more complete assimilation of the rules of the three Presidencies regarding the Regimental Pay and Allowances of the European Commissioned Officers of the Honorable Company's Service, is pleased to direct that from the 1st day of October next, they shall be drawn at the rates laid down in the following Tables, in which the total receipts in each rank correspond exactly with those now existing, the calculations having been made for a period of four years, in order to embrace a leap year.

In drawing arrears for broken periods for any month, they are to be calculated with reference to the number of days in the month, and agreeably to the monthly rates now laid down.

In abstracts for Garrison Pay and Allowances the different items composing the consolidated sum shown in the Table A need not be stated but for Officers not entitled to Tentage, or for those entitled to only Half Tentage, the total of each in the abstract must be reduced accordingly.

The House Rent of Officers living in Public Quarters and not entitled to that allowance, is nevertheless to be included in the total, but the amount must be deducted on the face of the Abstract, and Paymasters will give credit for the same in their Cash Accounts under the proper head. Separate Abstract for additional Half Batta when in the Field, at a Full Batta station, or marching must as heretofore, invariably be made, and the amount drawn at the rate laid down in the second column in the Field Table B; and Staff Officers who receive it in virtue of their Staff appointments, will draw it in their Staff Abstract.

Officers individually detached from Garrison Station on Court Martial, or their temporary duties which entitled them to both House Rent and Tentage, will, as heretofore, charge the full amount of half Batta in their Field Abstract.

Adjutants and Quarter Masters of Troops of Horse Artillery at Bombay, will be abolished as vacancies occur, and a Brigade Adjutant and Quarter Master in one person, appointed in the allowances above specified.

The Staff to the Brigade of Horse and Battalions of European Foot Artillery at Fort Saint George, and to the European Foot Artillery at Bombay, will prospectively, as vacancies occur, merge into one Officer for each European Brigade and Battalion, (in conformity with the practice in Bengal) who will draw the allowances above specified.

The duties and emoluments of the Regimental Staff alluded to in the two preceding paragraphs, will remain unaffected until opportunities occur for effecting the proposed consolidation of their appointments.

The separate office of Interpreter to the European Regiment at Bombay, will also be abolished prospectively, and as at the other Presidencies, a Quarter Master and Interpreter will be appointed on the scale of allowances here indicated for the Office. In the meantime, the Quarter Master will continue to draw the same aggregate of emoluments heretofore, but the same will in future be passed under the new heads herein detailed.

The additional Staff allowance of 30 Rupees a month, now granted at Bombay, to Quarter Masters and Interpreters of Native Infantry, and Native Artillery, when Interpreters of both the Hindoostanee and Maharratta Languages, will also be abolished prospectively, and in all future appointments, the nominee will draw staff pay at the new rate now assigned of 62 Rs. a month.

## TABLE OF PAY.

The present duties and emoluments of Interpreters of Her Majesty's Regiment of Dragoons and Infantry will both remain unaffected, but as vacancies occur, the separate Interpretships, whenever existing in each Language, Hindoostanee and Mahratta, will merge into one for both Languages, on the allowances here stated. This rule will apply equally to the Interpreter of the European Regiment.

The allowance of 21 Rupees a month, granted at Fort Saint George, to the Adjutants of Corps, European and Native while in the field or marching; for the carriage of Regimental Books of their own, and the Quarter Master's Department, will likewise be prospectively abolished, and the bona fide expenses incurred for those purposes, will be drawn when actually marching, as in Bengal.

## WARRANT REGULATING THE GRANTS OF UNATTACHED PAY, RETIRED PAY, AND HALF PAY.

Dated 1st October 1840.

VICTORIA R.—Whereas we have judged it expedient to revise, amend, and consolidate the Rules, Orders and Regulations which have from time to time been establishing for granting unattached pay and other rates of pay to General Officers, and retired full pay and half pay to Officers of our Army; Our will and pleasure is, that from and after the date hereof, this Our Warrant shall be considered the sole authority upon this subject.

### *Unattached Pay and other Rates of Pay to General Officers.*

1. The number of General Officers upon unattached pay of one pound, five shillings a day, not being in command of regiments, is limited to an establishment of 120 General officers.

2. The vacancies which may from time to time occur in this limited establishment, will be filled up by General Officers recommended to us by the General Commanding-in-Chief.

3. General Officers, being Colonels of Regiments in the event of their Regiments being reduced, may be placed, in the first instance, as Supernumeraries in the said establishments, but are to fall into the vacancies that may occur thereupon.

4. All Officers promoted to be General Officers shall whether on full pay or half pay at the time of promotion receive unattached pay at the rate of four hundred pounds per annum, or if Lieut. Colonels of Cavalry the net full pay of that rank, until elected to the establishment of unattached pay, at one pound five shillings a day or appointed to be Colonels of regiments;—provided such Officers shall have actually served upwards of six years with the rank of *Regimental Major* or *Lieut. Colonel*, either with a regiment or in some other Military capacity in the public service or having obtained the rank of *Regimental Field Officers* had been obliged to go upon half pay on account of reduction, or in consequence of ill health contracted in the service, as established by the Report of a Board of Medical officers, or in consequence of...

the Brevet rank of Lieut. Colonel; nor to any officer who went upon half pay at his own request in time of peace before he had served six years with the rank of Regimental Field Officer.

Officers thus situated shall continue to receive the half pay only of which they were in the receipt at the time of their promotion to be General Officers.

6 Officers removed from their Commissions as Field Officers, in Regiments of Foot Guards, in consequence of being promoted to be General Officers, shall receive unattached pay according to the following scale viz:--

Lieut.-Colonel.....600*l.* per annum.

Major.....550*l.* „

#### RETIRED FULL PAY:

7. A limited establishment of retired full pay shall be formed and kept up according to the following scale:--

20 Lieut. Colonels at 17*s.* a day each.

20 Majors, „ 16*s.* „

115. Captains whereof a number, not exceeding 45, may be Brevet Field Officers at 13*s.* 7*d.* a day each and the remainder Captains at 11*s.* 7*d.* a day each.

Captains on the Retired List, at a lower rate of pay, are not to be transferred to the new scale, except on special recommendation of the General Commanding in chief.

8. The officers to be selected for this retired establishment shall be recommended to us by the General commanding in chief, and they shall be appointed thereto according to the Regimental, and not exceeding to their Brevet rank, but they shall not thereby obtain any additional rank nor can they be further promoted.

9. Officers hereafter appointed to veteran battalions shall not, on their retirement, therefrom, acquire any claim to full retired pay, but upon reduction shall be liable to be placed upon half pay under the same regulations as Officers reduced from regiments of the Line.

#### HALF PAY.

10. The half pay of the Army is a remuneration for past Military services, and also an obligation on the part of the Officers to return to his Military duties whenever called upon, and any Officer not obeying the calls is liable to forfeit his half pay.

11. No officer shall be entitled to be placed on the half pay establishment on reduction from full pay, unless he shall have actually done duty in some other Military capacity in the public service, for a period of at least six years, excepting he shall have been compelled to retire upon half pay, by wounds received in action; or by ill health contracted on duty in our colonies after three years' Service.

12. An Officer having served more than three and less than six years, will however if reduced, be placed upon half pay, until recalled to active service.

13. An Officer having served less than three years, will if reduced, receive only a temporary allowance of half pay, according to the following scale:--

Service on full pay. Temporary allowances.

Under 1 year.....for 1 year.

1 and under 2 years.....2 „

2 „ 3 „ .....3 „

14. The temporary allowance shall cease at the termination of the above recited periods, or previously, if the officers shall have been previously replaced on full pay.

15. But an officer on temporary half pay shall be eligible to be appointed to a full pay commission either by exchange or otherwise, provided his appointment shall take place within five years after he has ceased to receive temporary half pay, in which case his former service shall be allowed to reckon.

16. The exchange to full pay under the preceding article may be made with a full pay officer entitled to half pay.

17. If an officer receiving the temporary allowance shall have purchased his commission, he may receive the regulation price thereof from the public through the Secretary at War, and the sum thus advanced shall be refunded to the public by the sale of a first full pay commission, provided that not more than one first commission out of two be thus sold for refunding to the public the regulated price of the commission so advanced.

18. If a Subaltern Officer having a claim to half pay is desirous of selling or commuting his half pay, the following Rule shall be observed:--

his commission, the regulated price may be given (whether receiving half pay or temporary allowance) with the usual presentation of a medical certificate as to his being in a good state of health.

If he did not purchase his commission, he may receive the new price of that commission, if a Lieut. with seven years full-pay service in the Army, or with six years' if a Cornet or Ensign; and the old price of the commission if under those periods, and above four years' pay service.

If he did not purchase his commission and should retire after less than four years' and more than three years' service, at his own request, and not on account of ill health or wounds, he shall only receive half the price of the commission at the new rate.

19. But in the cases included in the two preceding Articles, no officer on half pay shall of right, have a claim to sell or commute his half pay—the permission shall be governed by such a consideration of the individual case as the General Commanding-in-Chief and Secretary at War may think proper to recommend to us.

20. No Garrison Commission or Appointment shall give an officer any claim to half pay on retirement.

21. An officer who applies to retire upon half pay on the ground of ill health, must, if stationed in near London or Dublin, be examined by the principal officers of the Army Medical Departments in those cities, and if stationed elsewhere by a board of Medical Officers, agreeably to the provisions of the articles of War; the result of such examination to be forwarded to the General Commanding-in-Chief and Secretary at War. If such examination shall not take place the officer will be considered to have retired upon half pay for his own convenience.

22. Every Quarter the residence of the half pay officer is to be stated in his Declaration, whether his half pay be received by an agent or by himself.

23. If an officer of any of the undermentioned ranks shall have entered the Service since the termination of the war in 1815, and shall, after the date of this warrant, be permitted to exchange to half pay, not on account of ill health, but for his private convenience, before he has served seven years on full pay, he shall be allowed only the old rate of half pay specified in the following schedule; if the retirement should be for the public convenience by reduction or otherwise, or in consequence of ill health as certified by a Medical Board, the officer will be allowed the new rate of half pay.

No 481 of 1842.—The Honorable the Governor in Council is pleased to publish for general information, the following General Order by the Government of India.

No. 100 of 1842.

**GENERAL ORDER BY THE HONORABLE THE PRESIDENT IN COUNCIL.**

In obedience to the orders of the Hon'ble the Court of Directors, in their Military Letter to the Government of India, No. 6 under date the 4th May 1842, the following Regulations are to have effect in the Medical Department of the three Presidencies, from the 16th instant.

The situation of Superintending Surgeon to be considered a Staff Appointment, to which only those fitted for it by a zealous and able discharge of their Professional Duties, shall be deemed eligible, and the appointment to future vacancies will be made without reference to the order of succession, whenever it may be the opinion of Government, that such departure from Seniority is required for the maintenance of the Public Interests.

The present system, by which all Pensions in the Medical Service superior to those of Surgeon. (Captain's full pay after 17 years Service in India,) are dependent on promotion to the Staff Appointment of Superintending Surgeons is abolished, and in its stead the principle of granting those Pensions according to length of service established upon the following scale, viz.

|  |               |
|--|---------------|
| After 20 years' service, 3 years' furlough included as at present. | £ 191 a year. |
| " 25 .. .. . "   | £ 300 .. do.  |
| " 30 .. .. . "   | £ 365 .. do.  |
| " 35 .. .. . "   | £ 500 .. do.  |
| " 40 .. .. . "   | £ 700 .. do.  |

The Present Regulations by which Superintending Surgeons are entitled as such to, retiring Pensions of £300 and £365 a year, and Members of the medical Board to Pensions of £500, and £700 a year, according to period of service in those ranks respectively, will cease to be the rule of the Service for Medical Officers, after the date of the introduction of the new arrangements; but individuals then in the Service, and who may be appointed to the Offices of Superintending Surgeon and Member of the Board, within ten years from that date will be allowed the option of retiring upon Pensions upon the Old Scale of length of Service in those ranks, instead of the New Scale of length of Service in India.

The designation of 1st, 2nd and 3rd Members of the Medical Board is abolished, and the following Titles are substituted.

|                         |             |
|-------------------------|-------------|
| Physician General ..... | 1st Member. |
| Surgeon General .....   | 2nd ditto.  |
| Inspector General ..... | 3rd ditto.  |

The members of the Board will, accordingly, be commissioned with these Titles when appointed to the respective position abovementioned, and when retiring from the Service, will be placed on the retired List, with the title then held by them.

The Regulation which fixes the rank of Brigadier General, as the relative Army rank of Members of the medical Board, will equally apply to those Members under the new Titles now established.

All Surgeons of 20 years' Service, to be designated "Senior Surgeons" and their relative rank with Officers of the Army to be that of Major. This arrangement, like all others having reference only to the rank and designation of Medical Officers, confers no claim whatever to superior allowances, and will make no change whatever in the nature of their employment.

**GENERAL ORDERS BY THE HONORABLE THE PRESIDENT IN COUNCIL.**

*Fort William, 9th December 1837.*

The Honorable the President in Council, has much pleasure in publishing to the Army, the following Extract. Paras. 2 to 6, of a Letter from the Court of Directors, to the Government of India, No. 5, dated 20th September 1837, announcing the grant of additional advantages to the Senior Officers of the Army, in respect of Retiring Pension.

In our letter of the 26d December 1835 we announced to you, that as we considered it hopeless to expect, that any military retiring fund could be successfully formed, we had thought it right, so far as we could feel justified in doing so, to provide for the object contemplated in schemes of that nature, by an enlargement of the Retiring Regulations, and that we had in consequence, resolved to grant the full pay of Captain to every Officer who should have served in India 23 years (3 years furlough), where he had attained that rank Regimentally or not, and the full pay of each of the superior ranks of Major, Lieutenant Colonel, after the completion of an additional period of five years service for each of those ranks in succession viz.

For Major's pay..... 28 years service, including 3 years for a furlough.

For Lieutenant Colonel's pay 33..... ditto..... ditto.

For Colonel's pay..... 38..... ditto..... ditto.

2. Being now of opinion, that some additional advantage in respect to the periods of retirement, may properly be granted to the senior officers who would have been more especially the immediate objects of benefit from a retiring fund, qualify an officer of the pay of each advanced rank after that of Captain, shall be reduced from five to four years: the periods of service in India, required for each rank, being consequently hereafter as follows, vizt:

Every Officer who shall have served 23 years (3 years furlough included) shall be allowed to retire on the pay of Captain, whether he shall have attained that rank, Regimentally or not.

Every Officer who shall have served 31 years (3 years furlough included,) shall be allowed to retire on the pay of a Major, whether he shall have attained that rank or not.

Every officer who shall have served 36 years, (3 years furlough included,) shall be allowed, to retire on the pay of a Lieutenant Colonel, whether he shall have attained that rank or not.

4th. These arrangements to have effect without prejudice to any claims arising out of the Retiring Regulations as established in the year 1796.

5th. We desire that it may be distinctly understood, that the present is a final measure. You will accordingly decline to forward to us any application which may have in view a further extension of the Regulations now established with regard to the retirement of our military servants.

We are, &c.

(Signed) J. STURT, Lieut. Col.

London, 20th Sept. 1837.

Offg. Secy. to the Govt. of India, Mil. Dept.

Officers coming to England on furlough, are immediately to report their arrival by letter to the Secretary, stating the name of the ship in which they came and their address, forwarding at the same time the certificates they received in India.

The period of furlough is three years, reckoning from its date to the day of the return of the Officer to his Presidency.

Officers are required to join the establishment to which they belong at the expiration of three years furlough, unless they shall have obtained an extension of leave from the Court, six months before the expiration of that period. No furlough will be extended, except in cases of sickness, certified in the manner hereafter mentioned, or in cases which it shall be proved to the Court that a further residence in Europe is indispensably necessary.

All officers finding it necessary to solicit a further leave of absence on account of sickness must, if resident in London or its vicinity, appear before the Company's examining physician who will report to the Court of Directors his opinion on the state of such officer's health. And if resident in the Country in any part of the United Kingdom, they must transmit, with their letter of application for such leave a certificate of the following form, signed by at least two gentlemen, eminent in the medical profession:—

*I hereby certify, that I have carefully examined (state the nature of the case as well as the name of the party) and I declare, upon my honor, that, according to the best of my judgement and belief it is at present unfit for Military duty, and it is absolutely necessary for the recovery of his health, that he should remain at least longer in this Country.*

Also, previously to such extension of furlough being granted, such further proof shall be adduced by personal examination, or by such other evidence as shall be deemed satisfactory.

Officers abroad in any part of Europe applying to remain a further time from their duty, on account of sickness, are to furnish a certificate of two eminent physicians, in the above form with the attestation of a Magistrate that the persons who signed the certificate are physicians.

Officers having obtained an extension of furlough to a given period, must, at its expiration, apply for permission, either to return to their duty, or to reside a further time in England.

No Officer who has failed to obtain an extension of furlough will be considered eligible to return to the service after five years absence, under the Act of the Geo. III. cap. 52, sec. 70.

Every Officer upon leaving India will receive a printed copy of the General Orders on this subject, published agreeably to the Court's instructions, and the plea of ignorance of the regulations will not be admitted as any justification of the breach of them: officers, therefore, who shall come home on furlough and who shall not in due time apply, as to effect their return to the Presidency to which they belong within the period of three years, from the commencement of their furlough will subject themselves to the loss of the service, unless they shall be permitted by the Court to remain a further time in Europe.

No officer on furlough can receive pay for more than two years and half from the period of his quitting India, excepting Colonels of Regiments, and those of the rank of Lieutenant Colonels regimentally, when promoted to that of Major Gen., they are then allowed to draw the pay of their rank beyond the above period.

All Officers who quit India on furlough, shall, for the period during which by existing regulations they receive pay, be allowed at the following rates:

| Per diem.                        | Cavalry. | Infantry. | Artillery and Infantry. |

**LXXXI.** No Commanding Officer shall, by giving in against a prisoner vague and indefinite charges, try before a *Regimental Court-martial* grave offences, which are directed to be tried by a *General, District, or Garrison Court-martial*; --but where it may be advisable that some of the foregoing offences, which in certain cases may admit of less serious notice, should be tried by *District, Garrison, or Regimental Courts-martial*, --in such cases the Officer commanding the Battalion, Corps, or detachment, who may deem it advisable so to proceed, shall lay a statement of the case, together with the charge he intends to bring, before the General or other Officer commanding the Brigade, District, or Garrison, with an application so to proceed. LXXXIII. Where it may be necessary or expedient, the officers of our Marine Forces, and also the officers of the said Company's Marine Establishment, called the '*Indian Navy*,' may sit upon Courts-martial in conjunction with officers of our land Forces, and such Courts-martial shall be regulated to all intents and purposes in such manner as if they were composed of Officers of our land Forces only;—and Officers of our land Forces and Officers in the service of the said Company, when serving together, may be associated in Courts-martial, which shall to all intents and purposes be regulated in like manner as if consisting wholly of Officers of our land Forces, or wholly of Officers in the service of the said Company, except that on the trial of any person in our service, the provisions of the mutiny Act and the oaths thereby prescribed, and our Articles of War for the Government of our land Forces, shall be applicable;—and on the trial of any Officer or Soldier in the service of the said Company the provisions of an Act passed in the third and fourth years of our reign, to consolidate and amend the Law for punishing mutiny and desertion of Officers and Soldiers in the service of the *East India* Company, and for providing for the observance of discipline in the *Indian Navy*, and for other purposes therein mentioned, and the oaths thereby prescribed, shall be applicable, notwithstanding any other in the actual service of the said Company may have a Commission from us.

You shall well and truly try and determine according to the evidence in the case and matter, [or in the several cases and matters,] which shall be brought before you upon the Court-martial now assembled.

*So help you God.*

I, A. B. do swear, that I will duly administer Justice, as a Member of the Court-martial now assembled upon the case or matter [or upon the several cases, or matters] which shall be brought before the same, according to the Rules and Articles for the better Government of the forces of the *East India* Company, and according to an Act of Parliament now in force for the punishment of mutiny and desertion of the said forces and other crimes therein mentioned, without

partiality, favour, or affection; and if any doubt shall arise, which is not explained by the said Articles or Act, according to my conscience, the best of my understanding, and the custom of War in the like cases; And I do further swear that I will not divulge any sentence of the Court until it shall be duly approved or published in General Orders: And I further swear, that I will not, upon any account or at any time whatsoever, disclose or discover any vote or opinion of any particular Member of the Court-martial, unless required to give evidence thereof, as a witness, by a Court of Justice, or a Court-martial, in due course of Law.

*So help me GOD.*

And as soon as the said Oaths shall have been administered to the respective Members, the President of the Court shall administer to the Judge Advocate, or person officiating as such at General Courts-martial, on oath in the following words:

I, A. B. do swear, that I will not, upon any account whatsoever, disclose or discover any vote or opinion of any particular Member of the Court-martial, unless required to give evidence thereof as a witness by a Court of Justice or a Court-martial, in due course of Law.

*So help me GOD.*

LXXXV. All persons who give evidence before any Court-martial are to be examined upon oath, in the following words:

The evidence which you shall give before this Court shall be the truth, the whole truth, and nothing but the truth.

*So help you GOD.*

Or, in case of Natives of India, on oath or solemn declaration, as circumstances may require.

LXXXVI. No proceedings or trials shall be carried on except between the hours of six in the morning and four in the afternoon, except in cases which require an immediate example:

LXXXVII. No person shall use menacing words, signs, or gestures in presence of a Court-martial;—or shall cause any disorder or riot, so as to disturb their peace under a penalty of being punished at the discretion of the said Court.

LXXXVIII. All the Members of a Court-martial are to behave with decency;—to take their seats according to rank, and not quit them without permission of the President;—who will clear the Court on any discussion;—and in case of intemperate words used by any Member of the Court, direct the same to be taken down in writing, and reported to the Officer ordering the Court-martial to assemble;—no reproachful words are to be used to witnesses or prisoners;—and the President is hereby held responsible that every person attending such Court be treated with proper respect;—and in taking the votes of the Court, the President shall begin by that of the youngest Member.

LXXXIX. The Officers of Artillery shall, for differences arising amongst themselves, or in matters relating solely to their own corps, have Courts-martial composed of their own Officers;—but where a sufficient number of such Officers cannot be assembled, or in matters wherein other corps are interested, they shall sit in Courts-martial with the Officers of other corps in our service, or the service of the said Company, taking rank according to their commissions.

XC. A WARRANT Officer may be tried by a District Court-martial, to be appointed by the General Officer commanding the Forces in the District where the corps shall be situated;—and such Court-Martial shall not in any case consist of less than five Commissioned Officers, of whom not more than two shall be taken from the Regiment in which the Warrant Officer to be tried is serving;—and the President shall not be under the degree of a Field Officer, nor shall more than two of the other Members be under the degree of a Captain;—and the sentence shall not be put in execution without the confirmation of the General on the station, who may also suspend, mitigate, or remit the same;—and no Court-martial shall sentence a Warrant Officer to corporal punishment, nor shall he be reduced to serve in inferior situations, unless he was originally enlisted as a Private Soldier, and continued in the Service until his appointment to be a Warrant Officer.

XCI. For the prompt and instant repression of all irregularities and crimes which may be committed by Troops in the Field and on the line of march, Provosts-Marshal shall be appointed by the Government of the Presidency, or by

the Commander of the forces, or General commanding, and their powers shall be regulated according to the established usages of War and Rules of the Service;—their duties are to take charge of Prisoners confined for offences of a general description;—to preserve good order and discipline;—to prevent breaches of both, by soldiers and followers of the Army, and to punish on the spot, or the same day, those whom they may find in the immediate act of committing breaches of good order and Military discipline;— provided that the punishment be limited to the necessity of the case, and shall accord with the orders which the Provoost may from time to time receive from the Commander of the forces in the field, and whatever may be the crime, the Provoost Marshal shall see the offender commit the act, for which summary punishment may be inflicted, or if the Provoost Marshal or his Assistants should not see the offender actually commit the crime, but that sufficient proof can be established of the offender's guilt, a report shall be made to the Commander of the Army in the field, who is hereby empowered to deal with the case as he may deem most conducive to the maintenance of good order and Military discipline. —The duties of Provoost Marshal being limited to the punishment of offenders whom they may detect in the actual commission of any crime, the General Commanding the forces in the field will cause them to exercise the powers entrusted to them in such manner and under such circumstances as he may consider best calculated to prevent and instantly to repress crimes injurious to the discipline of the *East India Company's Army and the Public Service.*

XCI. The General, Governor, or other Officer having power to appoint Courts-martial, shall appoint Court-martial, an occasion may require, to be holden within the Territories of any Foreign state, or in any Country under the protection of us or the said Company, or at any place (other than *Prince of Wales' Island, Singapore and Malacca*) in the Territories under the Government of the said Company, situate above one hundred and twenty miles from the Presidencies of *Fort William, Fort Saint George, and Bombay* respectively, for the trial of any Officer or Soldier under his command, who shall be accused of Treason, Murder, Theft, Robbery, Rap, Coining or clipping the Coin of our Realm or of the said Company, or any Foreign Coin current in the place where such Officer or Soldier may be serving;—or of any other offence which if committed in *England*, would be a capital or other Felony,—or of having used violence or committed any offence against the persons or property of any of our subject, or of any others entitled to the protection of us or the Government at the *East India Company*, or of any State in Alliance with the said Company, and any such Officer or Soldier shall be tried by a General Court-martial appointed as aforesaid by the Governor or Officer commanding in chief in such place aforesaid for the time being,—and if found guilty, shall suffer death, or be liable to transportation for life, or for a term of years, or to such other punishment according to the nature and degree of the respective offences as by such sentence of any such General Court-martial shall be awarded;—such sentence nevertheless to be in conformity to the common and statute Law of *England*, and shall not be carried into effect until approved and confirmed by the Governor, General, or other Officer by whom or under whose authority such Court-martial was appointed;— provided that, in all cases where such Court-martial shall have convicted any Soldier of any offence punishable with death, it shall be lawful for such Court martial, instead of sentencing the offender to death to adjudge him to be transported as a felon for life or for a certain term of years,—and in every case wherein a sentence of death or transportation shall be pronounced, or a sentence of death shall be commuted to transportation, for any such capital offence committed at any place situated as herein aforesaid such sentence, whether original, revised, or commuted, shall not be carried into execution until confirmed by the General or other Officer commanding in chief at the Presidency with the concurrence of the Governor General in Council or Governor in Council, or Governor of the Presidency in the Territories subordinate to which the offender shall have been tried, although such offender may belong to the forces of another Presidency; provided always, that such sentence shall have been regularly reported to and approved and confirmed by the General or other Officers commanding in chief of the forces of the Presidency to which the offender shall belong, and by whom or under whose authority the Court-martial by which such offender shall have been tried was appointed.

## **Revised Passage Warrant.**

War-Office, May, 6, 1844.

SIR,—I have the honor to inclose Her Majesty's Warrant of this date revising the Warrant of the 19th Oct., 1842, for Regulating the Passages and Passage Allowances of Officers of the Army.

1. The alterations which have been made do not affect the principle which governed the former Warrant—that an Officer should pay for his own messing at sea that sum only to which he was subjected for his ordinary messing on shore.

2. By the Warrant of 19th Oct., 1842, Officers messes on board Queen's ships, whether at the table of the Captain or at the mess of the Lieutenants, and Officers messes under the contract, at the table of the Master of a vessel chartered or hired by the public, were liable to prescribed contributions from their pay for their own messing, and for that of each member of their family, which contributions were to be stopped from their pay by the Secretary-at-War.

3. The Warrant of the 6th May, 1814 has established that—

A Field Officer, messes at the table of a Captain of the Navy, will have to contribute the sum of 3s 6d. a day for his own messing, and the daily sums prescribed, in the 13th Article of the Instructions, for the messing of each member of his family. This contribution will be deducted from his pay by the Secretary-at-War; and the Lords Commissioners of the Admiralty will issue the prescribed allowances to the Captain of the Navy.

4. A Field Officer has, however, the option of joining with his family, the ward room mess.

5. Officers messes at the table of the Lieutenant commanding, or at the table of the Lieutenant of a ship of war, will receive from the Secretary-at-War 4s. a day, in aid of the expense of their own messing, in advance for the same number of days as the pay is issued in advance on embarkation, but will be required to pay to the Officers of the ship the actual share of the expense of the mess, equally with the officers of the ship, and will also pay to the Officers of the ships the proportions of that actual expense prescribed by the 13th Article of the Instructions for their wives and children permitted to embark with them. Such portion of the payment is to be made in advance, as may be considered by the Naval Officers necessary for providing the means for the passage.

6. Officers messes in vessels hired or chartered by the public, in which a proper table is under the contract, to be provided by the Master, will be liable to a deduction of 2s. 6d. a day from their pay by the Secretary-at-War for their own messing, but must themselves pay to the Master, the sums prescribed in the 14th Art. of the Instructions for the messing of each member of their family.

7. Officers provided with passages in the contract steam-vessels are to be subjected to the prescribed contribution of 3s 6d. a day themselves, and must pay to the owners the contract rate for the accommodation and messing of their families.

8. Officers entitled to a free passage, and providing their own mess on board ships, will be allowed 4s. a day, to be paid to them by the Secretary-at-War, but are not entitled to any allowance whatever for the messing of their families.

9. I have to request that you will caution Officers to be particularly careful that the prescribed certificates are in every instance obtained, to enable them to receive the liberal allowances which Her Majesty has been graciously pleased to sanction.—I have, &c.

H. HANDING.

The Officer commanding—Regiment.

1. Independent of the benefits which have been retired, the Bombay Military Fund is considered as biding out the prospect of eventual benefits under the following circumstances:—

2. If at any future period it shall be found that the fund of the institution afford a considerable surplus, after providing for the actual and probable applications for relief under preceding articles, it shall then, and not otherwise, be competent for the Directors of the Institution, provided the permission of the Hon'ble Court of Directors be obtained, to afford the aid of the Fund in the following cases:

*First.* To Subscribers compelled by ill-health to abandon the country after ten years' service, and before they are entitled to retire on full passage money.

*Second.*—To officers who may have served twenty-two years in India, and may be compelled by ill-health to retire from the service, without having attained the rank of Major, the regulated passage money of their rank, and such assistance from the Fund, as will render their whole income, from whatever source, equal to the pay of Major; and, as in the case of widows, the possession of an income not exceeding half the pay of a Major of Infantry, shall not occasion abatement from the provision to be made from the Fund.

*Third.*—In the event of a still further surplus, it shall be competent for the Directors of the Military Fund at their discretion, to assist Officers retiring from the service on full pay, in limited circumstances, with a sum equal to the regulated passage money of their rank, provided always that the resignation of such Officer shall actually have been accepted, previously to his embarkation.

*Fourth.*—Should the Fund, however, at any period fall short of the demands upon it, so that the annual income will not defray the amount of the annuities and other claims, then it shall be in the power of the Directors to make a proportionate deduction from the annuity of each annuitant, and from the payments to other claimants above the rank of Subaltern, until the state of the Fund shall afford the means of complete payment; when, if a surplus income exists, the arrears shall be made good from the amount of surplus, but not otherwise.

## REGULATIONS.

For establishing an effective Control over the boats and vessels lying up, landing Charges of Timber, &c. in the Basins, contiguous to the Marine Yard & for the better preservation of the public property & safety of the Mazagon Dock Yard.

ARTICLE 1st.—No vessel will be permitted to haul on the hard in the Basin on either side of the Dock Yard at Mazagon, to lay up for the rainy season for repairs or any other purpose whatever, before previous application has been made at the office of the Master Attendant for permission, when, the name of the vessel's owner, and trade, are to be produced, and which will be registered in a book kept for that purpose.

ARTICLE 2d. No vessel of any description will be allowed to haul within low water mark, for the purpose of discharging a cargo of timber, &c. before previous application has been made, as by the 1st article, and accompanied by a certificate from the Custom Master.

ARTICLE 3d. When it may be requisite, from the nature of the tides, that vessels should haul on shore, or to float in timber rafts in the night time, intimation must be given at the office of the Master Attendant the day preceding.

It is left to the discretion of the Master Attendant not to limit the number of vessels to be laid up, or quantity of timber deposited in the Basin; who will grant permission to such extent as he may deem expedient, consistent with the public safety, leaving a space for boats, Puntams, &c. belonging to the Hon'ble Company to lay up when not employed; but it is to be understood, as a general rule, that no private timber Merchant vessel, nor boats, are to lie near to the Dock Yard walls, than thirty yards.

## FEES.

Boats lying up during the rains, 5 Rs. per hundred candles.

Vessels hauling on the hard, to repair, or for other purpose, for one spring. — 1 Rupee per hundred candles and 2 quarters for every succeeding spring.

Paddles or Cotton Boats lying up during the rains, to pay 2 Rs.

Small boats lying up during the rains, to pay 2 quarters.

Vessels left on the hard the whole year, to pay 8 Rupees per hundred candles.

Ships or Vessels hauling on shore to break up, to pay 8 Rupees per hundred candles; the timber and lumber, if not cleared away in three months, will be removed by the Master Attendant at the expense of the owner.

Boats hauling timber cargoes, to pay three Rs. per hundred candles on the vessel's tonnage.

Old boats, water tanks or other lumber, if left on the hard more than two springs (unless belonging to vessels under repair) to pay one Rupee per month and if not removed in one year, they will be sold to pay the expense of their removal &c. notice being posted in neighbourhood, or advertised in the newspapers for three weeks previously.

All vessels or boats hauling on the hard contrary to the Regulations, to pay treble fees, and Timber Plank &c. brought clandestinely in the Basin or laid nearer the Dock Yard walls than prescribed by the Regulations, will be advertised and removed by the Master Attendant at the expense of the owners.

No fires allowed on board any vessels, or boats when laid up for the rainy season at any time, when covered with cadjans, under the penalty of paying treble fees, and the covering of the boats or vessels being taken away.

## SHIPS WITH PACKETS.

A ship bound to Madras and Calcutta, and bringing the E. I. Company's Box Packets to both, will receive 100 Rs. for all those packets delivered at Madras, and an additional 50 for all those brought on to Calcutta.

A ship bound to Madras only, or Calcutta only, will receive 100 Rs. for all her E. I. Company's box packets delivered at the port to which they are destined.

For bringing E. I. Company's box packets from Madras to Calcutta, 50 Rs. are allowed.

On the occasion of a person claiming the usual compensation for having brought out Government Despatches from Sydney, Melbourne, and Adelaide, he was told that the Governor of Bengal could find no precedent for paying gratuity upon the packets of Her Majesty's Colonial Governments, the usage in respect to packets brought from England referring only to packets contained in boxes delivered for conveyance for the East India House, not upon terms for freight, or under any fixed law or regulation.

An appeal having been made at Bombay, against the enforcement of the penalty prescribed in Clause XVI. of Act XVII. of 1837 or the Post Office Act, ordered to be levied from a commander of a vessel, by whom the marks for the General Post Office were defaced for correspondence after the arrival of his vessel in port, and the ground on which the appeal was founded being, that the practice in Calcutta was never to pay the fine and so it could be proved that the delay had arisen from wilful detention, and no sanction being requested as to the interpretation to be assigned to the clause above quoted, especially as regards the word, 'wilful,' as used in that clause, and in application to cases of carelessness and oversight, it was ruled that if it became necessary to procure the conviction of the offender before a magistrate, as provided for in Section 8, of Act X. of 1838, the Magistrate would have to put his own interpretation on the meaning of the word, 'wilful,' as used in the clause referred to.
